receiving stolen merchandise. Trooper Allen testified as to items found on Mr. Covert's property and Mr. Dewey identified the items.

Specially Mr. Covert was alleged to have taken aluminum windows, cooking stove, dual-thermo heater, plastic sink and paneling and side walls. It was stated that he had constructed nearly a complete camper with materials from the company, some of which he had purchased. Mr. Dewey testified that the nationally advertised price for a complete unit is \$1,095.

According to testimony, Mr. Covert had admitted to Trooper Allen that he had taken the items. Attorney Johnson closely cross examined the policemen as to how his client's constitutional rights had been protected. It was established that all the items mentioned in the complaint were being held in the company's custody as evidence.

The Commonwealth requested that the complaint be amended to read May, 1969, instead of the previous year as some of the items had not been manufactured at the earlier date. The amendment was allowed after close questioning of both witnesses by the defense attorney.

Magistrate Anderson stated in his opinion a prima facie case had been established and the case should go before the Grand Jury. Mr. Covert's bail was continued at \$7,500.

Mrs. Alfred Root, a resident of Franklin Street, appeared at the meeting to complain about a drainage problem as the result of a new home constructed adjacent to her property. She stated that mounds of dirt create a water problem in her basement and she believes that the septic tank of the new dwelling is five feet from her back door. The complaint will be investigated by Council Willard Newberry, chairman of the Sanitation Committee.

Harry Campbell, who resides on a corner property on Woodlawn Drive, appeared to request permission to build a garage within two feet of his building line. He stated that new paving in the area has prevented him

Councilman George Thomas reported that work on the recreation site is progressing. Additional insurance will be necessary before the site can be used by the public. Council will investigate available policies for the recreation site and re-evaluate the borough insurance program.

A letter was received from the General Code Publishers stating that they have completed Phase I of the codification of borough ordinances. They desired to set a tentative date for research of the borough records before compiling all the ordinances in to one workable volume.

A letter was received from Dr. Hugo V. Mailey, director of the Institute of Regional Affairs, regarding possible state aid would be forthcoming, Dr. Mailey suggested, only if the merger were consummated along lines provided by the police cooperation agreement.
