My Typewriter Talks

by the Rev. Charles H. Gilbert

Between Christmas and New Year's almost anything can be expected. All kinds of rehearsals, parties, wrappings, trimming, et cetera. Christmas caroling awards some of the most fun and sociability. Here at Mt. Zion it was another ecumenical procedure, with people from St. Pius Church going along with neighbors from Mt. Zion Methodists. They had a school bus with township police escort with flashing red lights and all. They made a big circle of visits which were enjoyed by the shut-ins and no less by the participants themselves. There were about 40 in the caravan who feasted together at the Mt. Zion church on cookies, coffee and enough of it. On Dec. 22 members of the

Carverton United Methodist Church M.Y.F., pairs-and-spares class and the Anderson class went Christmas caroling to cheer up the ill and shut-ins. There were 33 people in this group and they all finished at the Carverton church for suitable and plentiful refreshments. They all reported having a wonderful time. At Valley Crest Monday I did my highly delightful chore of getting and distributing point-sets to each of the nine solariums and the lobby, gifts of a couple down near Philadelphia who have been doing these seasonal benefactions for almost every year. Valley Crest has been open. It is always a delight to hear the many thank-yous along the

halls and to be able to pass along those expressions to the donors. As most of you know, our Dorothy is in the process of getting ready to return to Congo. My study indeed is a preface to Africa. She has loads of correspondence to get caught up on, much of which is air mail. There are bits and packages of materials she has been gathering for packing in trunks and boxes for the trip to the middle of Africa. Somehow I feel much nearer to Congo and incidentally to the subject of Christian mission on account of almost every inch of space here has Africa for a destination. It is not amazing to me any more how many different things are needed for such a journey. Also there come in to her letters from many of the people and places she has already visited in America as well as from some of her friends in Congo who are wanting her to be sure to return to them soon. Also I have just had over a hundred address stencils made for use in my addressing machine so I will not have to hand-type so many envelopes the next time I prepare a mailing of the Gilbert Story with Jots from Dot! And Dottie also is revising the list of addresses to whom the Mission Board letter will be sent. Perhaps you can understand how much we feel as if we, too, belonged to Africa and are part of the mission movement. And this is something which, of course, has been growing on us through the years since 1952 when Drothy first went to Congo. Do you wonder when I talk or write about missions that I say, "Missions is people!" It is people moving and packing and moving some more. It involves people getting ready to do their thing! Now our letters will have a new date line, for which we wish everybody a fullness of life and living for the 365-day package numbered 1971!

applications due for special tags

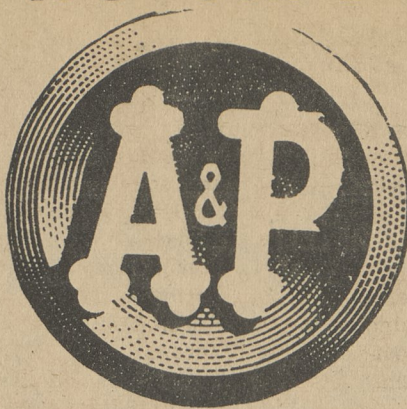

The state Motor Vehicle Bureau has recently mailed the 1971 license plate applications to those persons who already requested tags containing special numbers of their choice for next year's new issue of license tags, according to Nevin I. Benner, Director of the Bureau of Motor Vehicles, Department of Transportation. The official pointed out that these applications will have a distinctive marking and also show the reserved license tag number. In this respect they will differ from the regular license plate applications to be mailed later next month.

Since the processing of special tag applications involves extra handling and requires more time, Mr. Benner has issued an appeal that these be returned to his bureau as promptly as possible. The applicant should be sure to sign his application, attach the required fee and return it in the specially marked envelope provided. When the special tags are received by the bureau from the manufacturer, they will be issued to car owners.

Mr. Benner also announced that the Bureau will begin mailing the regular applications for 1971 passenger vehicle license plates Jan. 20, 1971.
