## Stalking the Good Life New Book at Library

A new addition to the Book Club shelf at the Back Mountain Memorial Library is *Stalking the Good Life*, a radiant new book by Euell Gibbons.

At a time when most men cry doom about our environment, this book is a celebration of life, a reaffirmation of the belief held by Mr. Gibbons, America's finest nature writer, that we have it in our power to change our lives for the better.

The secret lies in re-establishing the close friendship with nature that most of us have lost.

Through stories of his own experiences, Euell Gibbons shows how all of us can come closer to nature—share its gifts more intimately, and help to preserve the beauty and life-giving qualities now being lost through plundering and pollution. He believes in the brotherhood of man—and nature—and shows how he has seen union between all work with dramatic effectiveness.

**LEGEND OF THE PEARL-BIRTHSTONE FOR JUNE**

Universally loved, it has been said that "Nothing can seem more beautiful except a lovely woman". The one gem of great beauty and value that comes from the sea, pearls are the only birthstone of organic origin. Formed by a salt water mollusk, they are found in the Persian Gulf, South Seas and Australia coastal waters.

There's Old Magic in a Birthstone Gift

For all civilizations have been filled with awe at their mysteries. The astrologers of Ancient Egypt held that each day of the month had its own sacred stone. Moses ordered the breastplate of the High Priest to be inlaid with twelve stones—one for each of the tribes of Israel. To capture their imagination, wish them Happy Birthday with pearls.
