

Wyoming Seminary Lists Annual Alumni Day Activities

Several hundred alumni, some from distant points on the globe and from graduating classes of the distant past, are expected to attend Wyoming Seminary's annual alumni day activities May 18 at the Kingston campus.

A letter postmarked "Ohtaku, Tokyo 145, Japan" informed the Seminary alumni office that Hitoshi Takei, a special student graduate of the school's 1964 class, is planning to take part in his 10th reunion year celebration. He noted in the letter that he looks forward to meeting "the friends and the faculty members who helped me a lot in everything while I was there ten years ago."

Members of the 60 year and older graduating classes are also expected. Special recognition will be made of the 50 year class members during the alumni banquet which will

begin at 6:30 p.m. in Seminary's Fleck Hall.

Although it is a day for all Wyoming Seminary alumni, the 1974 Alumni Day is a special one for graduating classes ending in a "4" or a "9". Extra special observances are planned by the 50, 25, 20 and 10-year classes. The 50 year class, by tradition, will be the guest of Wyoming Seminary at the banquet. The Rev. Richard Jones, Ridley Park, is the chairman of class reunion activities for the 50 year class.

Pauline Newcomb Goeringer and Joseph B. Banks, both of Dallas, are co-chairing reunion activity for the class of 1949. Gloria Friedman Lyons, Kingston, is the 1954 chairman and Samuel K. Mitchell III, Haverford, is in charge of 10 year reunion functions.

A full alumni day program includes registration in the Wallis Room of Swetland Hall;

student tours of campus for interested alumni; and an 11:30 to 1:00 p.m. luncheon in Fleck Hall. A special section will be reserved in the Seminary gymnasium for the alumni who wish to observe the students' May Day program which begins at 2 p.m. Special class reunions, from 4 to 6 p.m., will precede the alumni banquet.

The banquet will be followed by a short business meeting and brief comments by Dr. Wallace F. Stettler, Seminary president, on the school's present status. The business meeting will feature the report of the nominating committee and election of alumni officers for the coming year.

The alumna or alumnus who represents the earliest graduating class and the one who has travelled the most distance will be recognized following the meal.

Betty Kanarr Bierly, Kingston, is general chairman of this year's alumni day. Members of her committee are Mrs. H. Alexander Smith Jr., Dallas; Mrs. Brendon Horrikan, Kingston; Mrs. Edwin Lyons, Kingston; Mrs. Jule Ayers, Wilkes-Barre; Mrs. Sheldon Nelson, Wilkes-Barre; and Sam Wolfe III, Wilkes-Barre; John E. Morris III, Dallas, is president of the Wyoming Seminary Alumni Association.

Mr. Morris has urged that alumni mail or phone alumni day reservations to the Seminary alumni office as soon as possible.

Orientation Scheduled In Dallas Jr. High For Grade 7 Parents

An orientation program for parents of students who will enter seventh grade at Dallas Junior High School next September will be held in the school auditorium at 7:30 p.m. May 22.

The program will be conducted by principal John F. Rosser, assistant principal Frederick J. Case, and Gordon R. Schlier and Thomas Carr, guidance counselors.

The purpose of the meeting will be to provide information about next year's course of study, some of the school's rules and regulations, and the program of extracurricular activities. Colored slides will be shown of the school followed by a question and answer period. The program will close with a guided tour of the building.

Mr. Morris has urged that alumni mail or phone alumni day reservations to the Seminary alumni office as soon as possible.

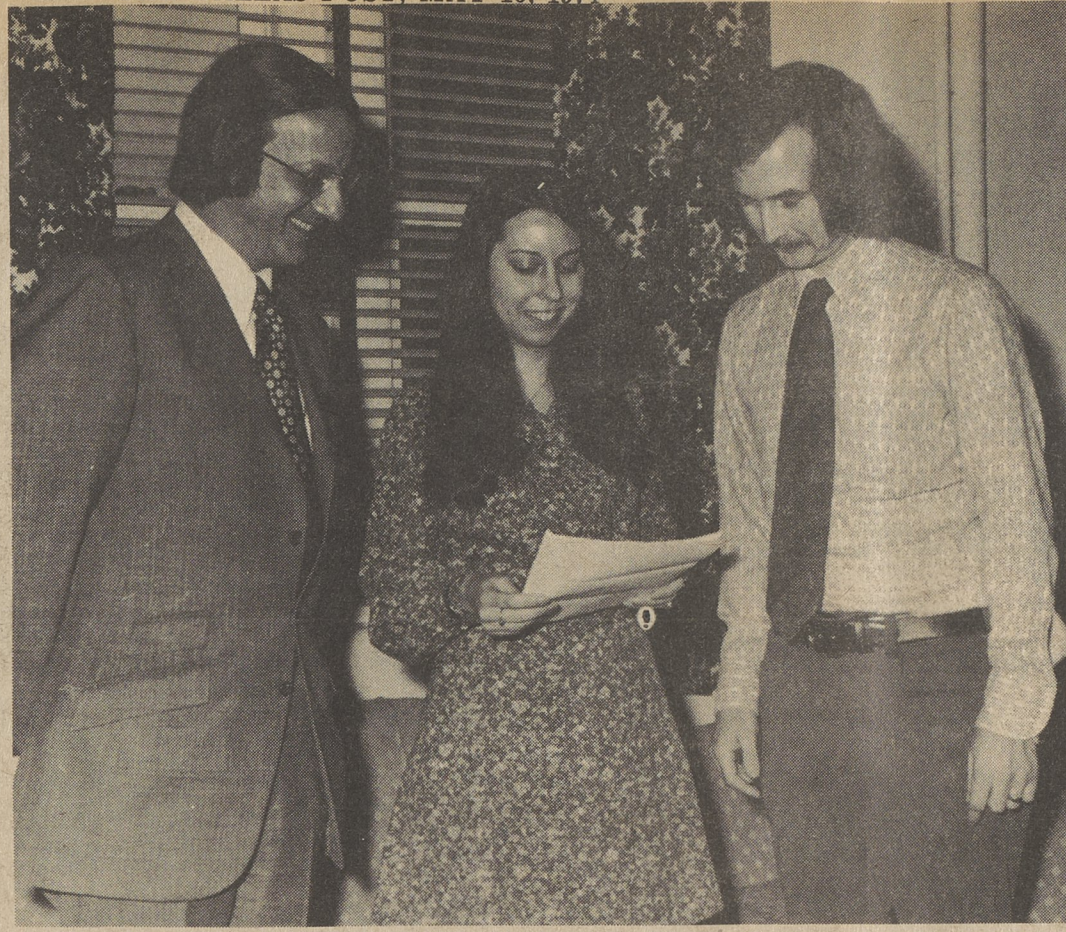

Dallas Man Earns Degree in Michigan

Charles Meister, 29 Split Rail Lane, Dallas, will be among 801 students to graduate from Northern Michigan University Saturday.

Mr. Meister will receive an A.B. in business.

The University's 74th annual commencement ceremonies will be held May 11.

Simcha Dinitz, Israel's ambassador to the United States, will be the commencement speaker. He will receive an honorary degree as doctor of humane letters.

Dr. Louis Maganzin, left, chairman of the history department at College Misericordia, and Thomas O'Neill, chairman of sociology, congratulate senior Rebecca Greschuk on winning the Fulbright-Hays Scholarship. Miss Greschuk is the first student in the history of Misericordia to win the internationally known award.

Fulbright

(continued from PAGE ONE)

Following her year of study in Germany, Miss Greschuk plans to pursue a Ph.D. program at the University of Michigan. The university offered her the program, bypassing master's degree studies.

She also received two master's degree program offers—from Case Western University and Washington University.

She is the daughter of Mr. and Mrs. Paul Greschuk, 213 N. VanBuren Street, in Scranton.

Construction

(continued from PAGE ONE)

Another letter was read regarding emergency access to Lake View Terrace. Residents say construction blocks even emergency access most of the day and were concerned that emergency vehicles would not be able to get through. Jim Weigher, job superintendent for Somerset Construction Company, said his equipment could be easily pulled out of the way for an emergency vehicle.

The purpose of the meeting will be to provide information about next year's course of study, some of the school's rules and regulations, and the program of extracurricular activities. Colored slides will be shown of the school followed by a question and answer period. The program will close with a guided tour of the building.

ornamental plants serve many uses—in the artificial world of many city dwellers, plants remain as one of the last tangible reminders of man's dependence on nature.

Trees and shrubs improve the surroundings for residents of rural and urban areas alike. Vegetation helps to muffle street noises, provides shade and protection against wind, and removes dust and noxious gases from the air.

Seminary Sophomore Earns Chemical Honor

Steven Strongin, a Wyoming Seminary sophomore, has become the second school sophomore in two years to win the annual high school Chemistry A examination of the Susquehanna Valley Section of the American Chemical Society. As accelerated sophomores, Steven and Bob Karp, last year's winner, were eligible for competition in the junior course exam.

This year's winner is the son of Mr. and Mrs. Paul Strongin, 18 Birch Road, Plains. Mr. Karp

is the son of Mrs. Estelle Karp, 560 Meadowland Ave., Kingston.

Steven received a copy of the "CRC Handbook of Chemistry and Physics" and a year's subscription to "Chemistry" magazine for achieving the high score in the competitive exam. These awards were presented to him at the annual awards banquet of the Susquehanna Valley Section of the American Chemical Society, at the Hotel Magee, Bloomsburg, May 8.

Wilkes College Changes ROTC Unit Commander

Cadet Capt. Walter Pellegrini last week accepted the command of the Wilkes College Air Force ROTC Detachment from Cadet Maj. John Kondek.

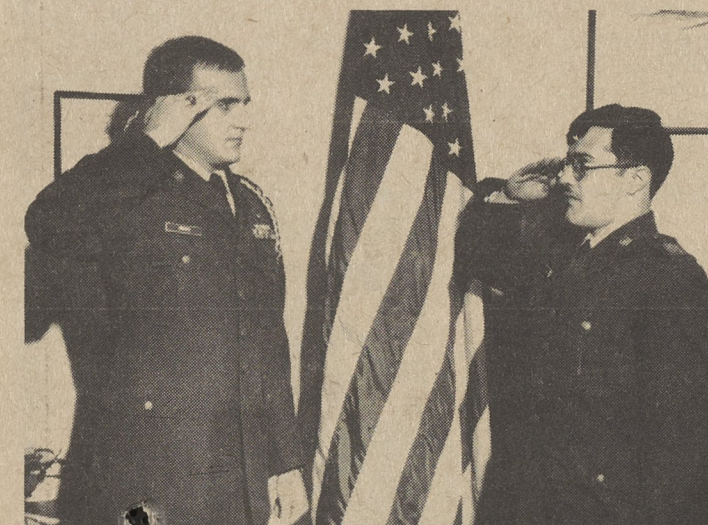

Cadet Pellegrini was appointed

to the post by Lt. Col. Richard L. Wing, professor of aerospace science and commandant of the Air Force ROTC at Wilkes College and nine consortium colleges in Luzerne and Lackawanna Counties.

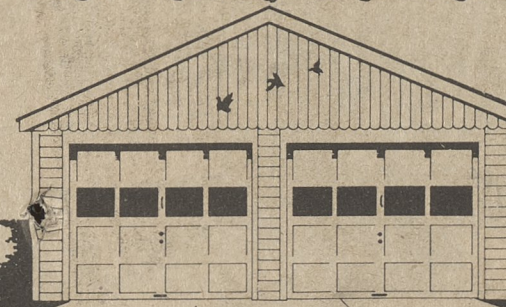

Cadet Pellegrini is the son of Mrs. Josephine Pellegrini, 33 Saint James St., Plains, and a business administration major at Wilkes College.

Cadet Kondek is the son of Mr. and Mrs. John Kondek, 116 Orchard St., Plymouth and is majoring in Social Science at Wilkes. He recently completed his Air Force sponsored flight training and has qualified for his private pilot's license.

Save Your Toes—The whirling knife-edged blade of a rotary lawn mower is dangerous, warns the Extension Service Farm and Home Safety Committee at The Pennsylvania State University. When shopping for a mower, choose one that is shielded well down toward the ground and treat it as you would a buzz saw. Save your toes.

Cadet Capt. Walter Pellegrini (right) accepts the command for the next year from Cadet Maj. John Kondek as a result of the appointment made by Lt. Col. Richard L. Wing, commandant of the Air Force ROTC at Wilkes College.
