

Pa. Buck Season to Open December 2 for 2 Weeks

Pennsylvania's deer hunters, who have recorded remarkably large deer harvests for a number of years, should again have a real good season in 1974,

according to the Game Commission. The regular two-week antlered deer season opens one-half hour before sunrise Dec. 2,

Trout Being Stocked in 52 Lakes for Winter Season

It's trout stocking time again. The Pennsylvania Fish Commission has started moving over 100,000 legal-size trout from a number of its fish culture stations to 52 lakes in 36 counties in preparation for the 1974-75 winter trout fishing season which opens at 8 a.m., Dec. 1.

Trout shipments for the winter season are made in two phases with approximately 50,000 trout released prior to Dec. 1 and the other 50,000 trout stocked prior to the Christmas holiday season. This year, for the first time, winter trout stocking numbers are included in the new county allocation system started by the Fish Commission last spring. Only brook and rainbow trout are used for the winter stocking program except for Lake Wallenpaupack, Pike and Wayne Counties, which receives some brown trout.

The 52 lakes being stocked with trout this year represent an increase of five over the number of lakes or ponds stocked last year. These include low-

er and upper Hereford Manor Lakes and Raccoon Lake in Beaver County; George B. Stevenson Lake, Cameron County; Sylvan Lake, Luzerne County, and Little Pine Lake, Lycoming County. North Park Lake in Allegheny County, stocked last year, will not receive any shipments this year due to a draw-down.

The winter trout fishing season opening Dec. 1 runs to midnight, Feb. 20, on all lakes and ponds over 10 acres in size, with a minimum size of six inches on trout that can be legally kept and a daily creel limit of three trout (combined species). All streams are closed to trout fishing (except the Fish For Fun Projects and several other areas as posted) until the opening of the regular 1975 trout season next April 12.

In Luzerne County, the lakes scheduled to be stocked include Harveys Lake, Rt. 415; Irena Lake, West Hazleton, Rt. 93; Silkworth Lake, Silkworth, Rt. 29; and Sylvan Lake, Sweet-Valley Road, Rt. 29.

and closes at sunset, Dec. 14. The regular statewide antlerless deer season is scheduled for Dec. 16 and 17.

Game Commission calculations indicate that the minimum size of the whitetail herd is about 600,000, a figure that is almost dangerously high in light of available over-wintering food supplies.

The Game Commission hopes that hunters will harvest upwards of 73,000 bucks and close to 60,000 antlerless deer this year. Otherwise, whitetails will be in serious trouble should severe winter weather conditions develop by December and continue through the month of March.

Last year, hunters reported taking 70,316 bucks and 56,575 antlerless whitetails.

Game Commission personnel again strongly urge all deer hunters to wear fluorescent orange clothing -- at least caps and vests of this color. The fluorescent orange not only is the best color for safety, but it also makes much easier the task of keep tabs on other drivers and watchers.

A hunter is permitted to take only one deer per year in Pennsylvania, and he or she cannot legally kill, or attempt to kill, a second whitetail.

To be a legal target during the antlered season, a deer must have a rack with two or more points to one antler or have one antler at least three inches long.

Not more than 25 persons are permitted to hunt deer in a single party, and groups of five or more hunting deer in unison must maintain a big game hunting roster.

Hunters must tag their deer within one hour of killing and before the animal is removed from the spot where it was killed. A detachable big game tag is provided with each hunting license. The tag must be separated from the hunting license, filled out and kept tied to the deer while it is being transported, hung at camp or temporarily placed in cold storage.

A big game kill report card issued to each hunting license purchaser must be mailed to the Game Commission within five days of the harvesting of the deer by the successful hunter.
