Trucksville nursery school plans open house April 18

The staff of the Trucksville Nursery School, located in the educational building of the Trucksville United Methodist Church on Church Road, is preparing an open house on April 18

Parents notified of Lake-Lehman elementary registration

Registration for kindergarten and first grade students in the Lake-Lehman schools will be held in the next two weeks. Parents are encouraged to register their children at the building where the child will attend. Any child who becomes five years of age before February 1, 1976, may be admitted to the 1975-76 kindergarten class if his parents so desire. Any child who becomes six years of age

before February 1, 1976 must be admitted for the 1976-1977 school term, if his parents so desire.

Registration will be held at the Lake Elementary building in Harveys Lake on April 21, and 30. At the Lehman-Jackson Elementary building, Lehman, registration will be held on April 23 and 28. Noxen Elementary building registration will be April 22 and May 1. And, registration at Ross Elementary building, Sweet Valley will be April 24 and 29. All registrations will be from 1 to 4 p.m.

On the first scheduled registration date at each building, personnel from the Pennsylvania Association for the blind will conduct a visual screening examination of any pupil whose parents so desire.

Parents are reminded to have them at the registration, the child's birth certificate and any vaccination certificates. Although small pox vaccination is no longer a legal requirement.

Students attending school for the first time must be immunized under the new school immunization law. Diseases requiring pre-admission student vaccination are: Diphtheria - Immunization shall consist of three or more properly spaced doses of diphtheria toxoid.

Tetanus - Immunization shall consist of three or more properly spaced doses of tetanus toxoid. These immunizations may have been accomplished by

administering tetanus toxoid, diphtheria, and pertussis vaccine.

Poliomyelitis - Three or more properly spaced doses of trivalent oral polio vaccine.

Measles - A single dose of live attenuated measles vaccine or the disease.

Rubella - A single dose of live attenuated rubella vaccine.

The law does provide for certain exceptions where a physician certifies that immunization may be detrimental to the child's health or if the child's parent or guardian objects in writing to such immunization on religious grounds.

The school district has reminded parents that all four schools are in the district and despite registration at a particular school, students may be assigned to different buildings by the board of education. This is done in order to maintain reasonably sized classrooms. Transportation is provided by the district.

Parents unable to register students at the scheduled times may register their child at the Central Elementary office in the Lehman-Jackson Building. The office is open every weekday between the hours of 8 a.m. and 4 p.m. All registrations should be completed before May 2.

Parents are reminded that once a child is registered in a public school, he then falls within the provisions of the Compulsory Attendance Law.
