

Candidates at Irem Country Club

Nine of the 13 candidates for office of school director at Dallas Area and Lake-Lehman School Districts appeared at the Candidates Night, April 10, at Irem Country Club, Dallas.

The program was sponsored jointly by Rotary, Kiwanis, and Lions Clubs of the Back Mountain, following their joint dinner meeting. Frances 'Red' Ambrose presided and introduced the candidates, each of whom offered a brief presentation of their background and interest in seeking election.

William L. Cutten, RD 3, Wyoming presently a member of the Dallas School Board, is seeking re-election. The former owner of Cutten Gas Co., he is now retired which gives him an opportunity to work for his community.

Cutten was born in Ohio and before coming to the Back Mountain in 1941, lived in Canada, New York and the New England states, as well as Indianapolis and Nova Scotia. He received his A.B. degree in 1932 from Colgate University.

He believes in good education for as little money as possible. Cutten is proud of the innovative work done at Dallas. He has seen a great change in the board during the past few years. It is comprised of people who want to know what is going on, a more active board with outstanding cooperation between the directors and faculty. He believes that he has the time to do a good job and is enthusiastic about working for the progression of the school program.

Dr. Alfred M. Camp,

former member of the Dallas School District faculty, resides on East 42nd St., Dallas, where he moved seven years ago from 55 South Lehigh Street, Trucksville.

He has a B.S. in Music and Social Studies from Wilkes College, M.S. Ed., Bucknell University; M.S. Ed. (psychology), Scranton and Doctor of Education, Lehigh University.

Dr. Camp has been a teacher since 1901 when he became a member of Lake Township School District faculty. In 1947, he joined the faculty of the Dallas Schools where he has been employed until recently. He also served as principal of Dallas Evening Extension School from 1960-62.

He has played an active part in the community, organizing various musical groups, and directing audio-visual clubs. He also participated in PTA, church groups, firemen's associations, Grange, and directed a private camp for boys and girls. He is a member of Prince of Peace Episcopal Church, Dallas. He was born in Nanticoke but has lived in Dallas for most of his life. Dr. Camp is married to the former Jean Billings of Trucksville.

As a school board candidate his interest is to see that every student receives optimum learning efficiency through proper selectivity, productivity and accountability. If elected, he would strive for cooperation and good relationships with administration, teachers, students and the community through honesty, economy, equality and especially good communications. It is his opinion that a board should spend 10 per cent in making policy and 90 per cent in checking to see that it is carried out.

He feels his educational background and interest in children and the com-

munity would serve him well as a school board member.

Earl Fritzges, 206 Cliffside Ave., Trucksville, is a lifetime resident of the Back Mountain. He is a graduate of Bucknell University and is employed by Dunn & Bradstreet. He has six children, two of whom have graduated from high school, one who will graduate in June, and three in secondary schools.

He is keenly interested in children and a member of the original Little League in this area. Fritzges has sponsored two children as heart patients, one who has successfully recovered from heart surgery and the other on the road to recovery.

He served on the school board from 1965 to 1971 and took part in the elimination of crowded conditions, construction of the new junior and senior high schools, expansion and development of the curriculum, opening of the West Side Vo-Tech School, and acquisition of new land which was later used for construction of the new intermediate school.

He feels his past experience should serve him well in a position on the board and plans to contribute any possible effort to accelerate moves toward excellence in programs for the students.

Richard D. Hislop, RD 3, Orange, is a native of Franklin Township. He is married to the former Joyce Oliver of Dallas. He has three children, two in high school and one in the grades.

He attended Bloomsburg State College and is employed as a tool and die maker at Diamond Mfg. Company.

Hislop has been active in youth work the biggest part of his life, working with the Y.M.C.A., boys clubs, Little League, and Jenks Athletic Association. He would like to represent Franklin Township and the younger people in the area.

Gloria Brennan, 141 Main St., Dallas, has five children, three of whom have graduated from high school and attending college, one in senior high school, and one in junior high school.

She has lived in two school districts other than Dallas and has a high regard for the Dallas schools.

She lists her interest in children, and their curriculum in school as her primary qualification for the board. She has been active in restoration of bus transportation and recreation for children of the Back Mountain. She would like to sit on the board working with others to reach the district's educational potential.

Angelo Decesaris, RD 5, Shavertown, was born in Nanticoke and graduated from Nanticoke High School. He spent four years in the U.S. Marine and holds a B.S. degree in accounting and a Masters in C.P.A. He is also a certified data processor and has been with King's College since 1953.

As a parent he is interested in the school program. He would strive for quality in education. He feels often there is a tendency to lose control on the local scene. As a taxpayer, he would work for economy and efficiency.

Edward Mark, RD 2, Hunlock Creek, has lived in Ceasetown for 15 years. He has four children in the Lake-Lehman Schools, a senior sophomore, freshman, and fifth grade student.

He graduated from King's College in 1958, and University of Scranton. He also attended New York University, Marywood College, and Pennsylvania State University.

He is a member of the American Legion, Jackson Twp., Fire Co., past president of the zoning and hearing board, and served as chairman in Boy Scouting.

He believes that he has the maturity, stability and imagination which coupled with the necessary skills would make him a capable director in running an efficient school district. Mark is a professional psychologist and has initiated innovative and flexible programs in his field.

Mrs. Jyce Hrabowski RD 4, Dallas, has three children in the Lake-Lehman School District. She is employed by Luzerne Intermediate Unit. She is interested in education and all children.

She believes that as a mother and taxpayer she can offer a special ability to the school system.

Dean Casaday, Shrine Acres, Dallas, was born in Indiana, Pa. He attended Clarion College and holds a B.S. in math and a B.S. in science. After graduating from college he taught in Penn Hills. He studied engineering at both University of Pittsburgh and Carnegie Tech but received his degree in engineering from Pitt.

He is vice president of the Pennsylvania Gas & Water Co., in charge of all new business ventures of the company. He has three children.

He has five motives in his contention for school board membership: concern for the best possible education, maximum value for the tax dollar, improved education, best qualified members for the school board, and best long and short terms plans which can be carried out.

Remaining candidates for election to Dallas and Lake-Lehman School Boards were not present at the meeting.
