

**School provides early childhood education**

The nursery school of Trinity United Presbyterian Church, Dallas, provides a program in early childhood education for all children three and a half to four years of age. Monthly themes with arts, crafts, science, music and field trips form the basis of the program for young children.

The children recently completed a safety unit of study, highlighted by a field trip to the Dallas Township Police Department. Chief Ray Titus, conducted the tour of the building and inspection of the cruiser. Candy treats were given to all the children by our friend the policeman at the closing of this unit.

The four year old children will visit the Dallas Elementary School on May 7, in preparation for their entering kindergarten in the fall. They will tour the building and class rooms, meet their new teachers and become familiar with the new surroundings of the school.

Registration is presently underway for the September 1975 and 76 classes. Limited openings are available in the morning and afternoon sessions of the four year old class only.

Classes meet from Monday through Thursday; 9:30 to noon and 12:30 to 3 p.m.

The nursery school calendar relates to the Dallas School system for most holidays and vacations. Each class consists of ten children taught by qualified teachers.

Further information is available by contacting the church office or Mrs. Joseph Laver, director.

The school will close for summer recess on May 29, with a family picnic and program presented by the children.

**Gate of Heaven guild hears fire, ambulance presentation**

Gate of Heaven Parent-Teachers Guild recently held their monthly meeting in the School Auditorium with Ken Adams, presid-

ing. Following the business meeting a program was presented by Jim Davies and Bob Besecker representatives of the

Dallas Fire and Ambulance Association, arranged by Mr. John Luke, program chairman.

Besecker commented that each fire and ambulance organization in the area is on a mutual aid basis, each available to the other when necessary, and presently volunteers are working under an escalated training program so the most efficient assistance is offered under any circumstances.

Several safety measures were recommended by both men, one being the availability of smoke alarms in the home, and rope ladders to be placed by any set of windows requiring a distance to ground level.

They also suggested the purchase of a fire extinguisher of the proper type. They advised people to obtain phone stickers with the fire company number, to be affixed to the phone for instant access to the fire company.

A public awareness day will be sponsored by the PTG on June 29. All parents are encouraged to attend, particularly with children, to enhance their interest in fire and ambulance responsibilities and how they function.
