### Misericordia presents Flash Sound, Light Show

College Misericordia has announced plans to present the Jack Flash Sound and Light Show at the college on Sept. 20 in the first area appearance of the Boston-based group.

Billed as "a total experience in sound and light", the show consists of four hours of the latest rock music played in an atmosphere of nearly overwhelming light.

The three-man group uses color organs, strobes, a bank of light projectors, and a truck-load of sound equipment to produce the effect. Over 1200 recordings are tied in to the light effects.

The audience is invited to

dance or to simply enjoy the show, according to promotional material put out by the group.

The show will be held in Merrick Hall at Misericordia from 8 to midnight. Admissions will be \$3, with tickets available at the door or in advance by contacting the college.
