Goodies for Christmas

With Christmas only a few weeks away, Back Mountain homemakers are beginning to bake cakes and cookies for the holidays. Most of them are interested in trying new recipes as well as family favorites.

Among these busy homemakers is Doris Brobst of Dallas, who each year bakes dozens and dozens of goodies, some family favorites, other new ones obtained during the past year. Her friends look forward to sampling her delicious cookies.

The former Doris Stookey, daughter of Emma Stookey and the late Charles Stookey of Dallas, she was born and raised in Dallas and graduated from the former Dallas Borough High School.

Following graduation she worked at the United Penn Bank (then the First National Bank of Dallas) until she married Harold Brobst three years later.

Doris continued at the bank for a while, then left to take a position at Natona Mills where she remained until shortly before her oldest daughter, Bonnie, was born. Bonnie is now Mrs. Thomas Valentine and resides in Reading.

Later, Doris and Harold had a son, H. Lee Brobst, now married and living in Idetown, and a daughter, Patti, a student at Wilkes-Barre Business College.

Nine years ago, Doris went back to work at the bank as a part time employee.

In spite of the fact that Doris is known for her delicious baked goods, sewing and raising flowers and plants are her two favorite leisure time activities.

In the summer she has a beautiful rock garden which she gives a lot of attention and plants are abundant inside and outside her home summer and winter. "When my family begin making remarks that the place looks like a jungle, I know it is time to get rid of some of them," said Doris. So her friends become the grateful recipients of many of the plants which she has started from mere slips.

During the winter, Doris does a lot of sewing. She makes both her own and her daughter's clothes. Presently, she is making Christmas gifts for members of her family. Doris does appliqueing and embroidery as well as sewing.

Doris and her husband enjoy playing cards and belong to several clubs. They also belong to a supper club which meets monthly. Most members of the club have known each other for more than 30 years and many of them worked together at the bank years ago.

The Brobsts spend many weekends at their summer

cottage at Lake Carey during the summer months although not as much as they did when the children were younger.

Doris does very little traveling with the exception of short visits to her daughter and son-in-law's home in Reading or with a group of friends to a show in New York. She does like the shore and she and Patti often spend several days at a time along the ocean. Last year, the entire family went and had a wonderful time.

Doris used to bowl but gave it up several years ago when working consumed too much of her time; she also refinished furniture and several beautiful pieces are in her home.

She has made beautiful straw flower arrangements from those raised in her garden, some of which she has kept and others which she has given as gifts.

Among the recipes Doris shares with Post Readers is Cherry-Date-Nut Loaf which does not take as much time to make as fruit cake but which is equally delicious.

The ice cream wafers are simple to make. Her mother made them when Doris was a little girl. The others are family favorites and most of them melt in your mouth. Readers looking for new cookie recipes are urged to try them.
