Dear Santa Claus,
Have a Merry Christmas. How are you doing? Are your reindeer fed? Then go!! I hope you bring a lot of things for me. Like 1,000 baseball and football cards, a fishing pole, and other things. Are your reindeer o.k.? I hope so.

Sincerely,

Dear Santa Claus,
I've been waiting for you a long time. December is one of the best seasons of all, the best season in the world because of winter and Santa. I like Christmas because its the jolliest time of the year. I like Christmas because we sing songs

called Christmas carols. I like Christmas because it is the best of the holidays. And also because its our own Savior's birthday.

How Santa's reindeer came to fly

Once upon a time Kris Kingle was delivering toys. When he was going over the mountain the winter Warlock saw him. He got over the mountain safely. The winter Warlock said, "I will get him when he comes back."

When Kris Kringle came back the tree got him and Kris Kringle gave him a toy train. The winter Warlock was Kris Kringle's friend. When he took more toys to town he got caught by Berger Mister Mister, Berger (the mean mayor, and got put in jail all the elves and the winter Warlock went to jail with him.

The reindeers came to the jail and the winter Warlock gave them some magic feed corn, which would make them fly. That is how Santa's reindeer learned how to fly.

Dear Santa Claus,
I love Christmas very, very, much, and I love you too. I would like to have a Baby Dalmation, a little puppy. I have a big dog and it is a Dalmation too. But if you get me a dalmation, get me a boy because my other dog is a girl and I do not want them to fight.

Christmas tree

Most trees on the hillside
Were dressed in bright red.
The poor little pine tree
Just stayed green instead

She looked at her neighbors
Each gaudely dressed
And wished that she could be
As gay as the rest.

Months later some children
In search of a tree
Looked at the green pine

And pointed with glee.
She now wears bright tinsel
and many a ball
She's brighter than any
Red tree of the Fall.
Bedecked and bespangled
On each needle bough,
She wishes the other trees
Could see her now.
