

FENCING--Members of Back Mountain service clubs and Boy Scout troops were on hand to assist the installation of a fence for the fairgrounds.

**Searching
for a
club
program
for the
coming year?**

**We have a couple
of ideas for you.**

1

DIALOG ON NEWSPAPERS--An informal chat with one of our editors on what's involved in getting together a community newspaper--your community newspaper. Sort of a "Meet the Press" in which you ask the questions. Good program potential if your club's willing to ask questions.

2

AN INDEPENDENT VOICE--A 28-minute color motion picture showing the role of the newspaper in the history of the nation. An educational film produced in 1974 for the Smithsonian Institute in Washington, D.C.

3

PUBLICITY TECHNIQUES--A how-to-publicize session to help your club work with the local media. Slanted of course, to the local newspaper viewpoint.
