## 'Miss Hope' honored in Congressional Record

A College Misericordia graduate bid her farewell to the kind of year young women dream about this week.

Karen Lukowski, a 1976 graduate of College Misericordia, and a graduate nurse, has represented the American Cancer Society throughout the State of Pennsylvania this past year as Miss Hope of Pennsylvania, 1976.

One year ago she was Miss Hope of Luzerne County, and spent her time away from school visiting schools and colleges and presenting anti-smoking programs for the Society. When she took the trip to Carlisle she went with no idea of winning, but edged out 41 other hopefuls from counties throughout the State.

This week a local delegation, including Sharon Novicki, Miss Hope Luzerne County 1977, were down at the annual crusade kickoff at the Embers Convention Hall to witness a new contest for the Pennsylvania Miss Hope, and to participate in a variety of events, including Karen Lukowski's final speech.

Karen made a name for herself throughout the state. Making countless appearances on television and radio, she became the state spokesman for the ACS. She was written about and photographed for newspapers and magazines throughout the state, and recently was given a unique honor: A page in the Congressional Record of Jan. 11th was devoted to her—words spoken by Congressman

Daniel J. Flood concerning her role in cancer education.

A copy of this page was framed by the local unit, and was presented to her

by Patrick J. Lenahan, President of the Board of Directors, at a recent function.

Karen is now employed at St. Luke's Hospital in

## Religious Viewpoint

by Clyde Dupin

A major problem facing our society is the drug problem. In High Schools and on college campuses, it has become the number one problem. Concerned parents, educators, and local authorities have found no successful way to deal with drugs. Almost daily, we read about suicide, accidents and crime caused by the abuse of drugs.

At last we may be facing up to our need of God. In Him there is an answer and cure for this problem. The conclusion of a Government-financed report now being studied by the National Institute of Drug Abuse in Washington, is that Teen Challenge has the most effective program. Teen Challenge is a Jesus-centered drug rehabilitation program founded by Dave Wilkerson in 1958. According to the \$150,000 research project, Teen Challenge with its spiritual emphasis has a 70 percent cure rate from addiction. The director of the research project said, "This is the best program to get a person off drugs."
