## Field Notes

**LUZERNE COUNTY:** Deputy Knely apprehended a hunter the first morning of the antlered deer season possessing a loaded rifle in a moving vehicle. The hunter right then and there tore up his hunting license and said he was finished hunting.

We appreciate that, for we would rather have one less careless hunter than another accident statistic. Nature blessed the wildlife population with two excellent years of mast supply resulting in bigger bodied and antlered deer this year. She also supplied additional cover when, back on Oct. 17, we had a snowstorm that broke down many tree tops

on the tall oak trees and many of those nice bucks have used this additional cover to elude the hunters during this first week.

A senior license owner came to my headquarters to get a permit to kill a second deer. I issued the permit and new tag, and as he left, I told him that I hoped he would get another deer to which he replied, "I don't, dragging this one out aggravated an old illness! Sometimes, I just don't understand people!" District Game Protector Bob Nolf, Conyngham, Pa.

**BRADFORD COUNTY:** During this month I lost many deer that had been hit by vehicles. One night I received a phone call from a former deputy that had

hit a deer near New Albany. I arrived at the scene and found the former deputy rather upset.

It seems that he had hit one deer and another car had hit a second one. The other fellow had no flashlight so he loaned his to him so he could check the deer.

He told him he was going home for another light, but when he returned, the second deer had been taken, along with the flashlight. District Game Protector Edward Gallew, Wyalusing, Pa.

98-lb. Joe Parsons put the Knights first six points on the scoreboard on a forfeit by the Titans. Pazuchanics made it 6-4 by defeating Williams. The Knights Kelly Traver took a 16-4 bout from 112-lb. Mike Caffrey and 119-lb. Chris Shaw outwrestled Titan Mark Walko 13-2.

126-lb. Luther Jones took a close 4-2 decision from the
