DAMA closes project

The board of the Dallas Area Municipal Authority held its regular monthly meeting on Thursday, March 9.

The board was informed by letter from CRM Associates, insurance company of Builders of Sanitary Sewers, that if DAMA reimburses BOSS for work done on project 1-C, Stonehedge, they would be in no way liable for damages inadvertently done during construction of the sewers.

When the Stonehedge project was being completed, a pipe running between the properties of Tucker Graham and Jim McGuire was damaged causing some water damage to their homes. CRM Associates letter informed DAMA that if Graham and McGuire can establish a case their claim will be paid. It was explained that this situation was to be handled between the insurance company and the claimants.

Robert Parker made a motion to have solicitor Merton Jones prepare a letter explaining the situation and send it to the claimants, along with a copy of the letter from CRM Associates, and also to close out project 1-C, Stonehedge.

A discussion was also held concerning the purchase of additional insurance coverage for flood, and water damage to the building and equipment. Previous water damage to equipment amounted to \$8,000 which was not covered by insurance.

Tom Bagley will consult with several different insurance companies and will report his findings at next month's meeting.
