

# Citizens of Wyoming Valley: It's Time To FIGHT FOR FLOOD!

## Congressman Daniel J. Flood

Dan Flood has fought the good fight for all of us, for many long years. Whatever this area needed—jobs, disaster relief, urban redevelopment—Dan has stood toe to toe with the powers that be, and slugged it out in our behalf.

His championship quality has rubbed off on all of us. Under Dan's leadership, we're taking a new pride in our community. We've shaken off the old defeatism, and we're walking tall. A new Valley has been born . . . a Valley with not only a heart—but a future.

Today, Dan finds himself in the toughest scrap of his career. Only this time the arena is not Congress, but a courtroom. And he's taking a lot of low blows without complaining—because that's the only way a champion knows how to fight.

We must realize that it isn't Dan's fight alone. Dan IS Wyoming Valley, and his full and complete vindication will be a victory for each and every one of us. YOU can help to make this victory possible in two ways: first, by giving Dan your moral support—speaking up for him at every opportunity.

Secondly, in recognition of the fact that legal defense calls for great sums of money, you can make a contribution to the trust fund now being raised for Dan's defense. Known as "Trust Flood" this fund is a completely independent, non-political effort involving your fellow-citizens from every walk of life.

Contributions can be made at your nearest branch office of Northeastern Bank. Checks should be made out to "Trust Flood." Don't hesitate to make even a small contribution. Remember, this is our way of telling Mr. Flood—

*"Keep punching, Dan. We're in your corner."*
