Teri moved to Shavertown with her family during the summer of 1977 from Cheyenne, Wyo. She likes this area, especially the variety of trees and the scenery.

Teri is active in the drama club at school and works with the technical crews. She also is a member of the National Honor Society and has more than a 3.4 average. Teri also is a member of the yearbook staff, serving as editor of the underclassmen section. She also does some typing for the school newspaper.

She is enrolled in the general course with a background in business as well as the required

courses for admission to college.

Teri works part time at Burger King. She also plays tennis and during the summer enjoys swimming at Frances Slocum Park. She likes music and plays the piano.

Teri plans to attend Nebraska University following graduation where she will major in elementary and special education.

She enjoys traveling and since her father is in the Air Force, Teri has been all over the United States and also spent about 18 months in Okinawa and Japan.

This summer she hopes to visit her old friends in Cheyenne before attending college in the fall.

Teri likes Dallas High School because it is not too large and the students know one another. She said there is a close relationship between the teachers and students. Teri used to attend a school with a large enrollment.

She would like to see better orientation for the students in their preparation for future careers.

Kitty Houssock

The Lake-Lehman student in the Post Spotlight this week is senior Kitty Houssock.

Kitty is the daughter of Mr. and Mrs. Michael Houssock of Sweet Valley.

She is the youngest of six children, three older sisters and two older brothers. Her sister Eleanor is married and has two daughters and resides in Kingston, Carol, who lives in Lehman also is married and has two daughters. Ann also is married and has one daughter. Kitty's brother, Mike, who recently returned from the U.S. Army, is married and has a daughter. Her brother, John, will be married this Saturday.

Kitty, who has been in the band for the past five years, is a captain of the flags and also captain of the color guard with the saber. She enjoys traveling and with the band has been to Canada twice, to Kentucky, to Virginia twice, to Sherburne, N.Y., five times and most recently, to Georgia where the band won the grand national championship.

She also is a member of the student council and serves on the yearbook secretarial staff. Kitty was basketball and cross-country statistician and during her junior and senior years was a member of the girls volleyball team.

This year, Kitty and her partner, Charles Kasko, won the high school's dance marathon dancing for 27 hours. The couple raised over \$400 for the Leukemia

Foundation. Kitty is a member of this year's honor roll.

During her leisure time, Kitty is a volunteer instructor for the band front of the Keystone Drum and Bugle Corps. She loves music and drum corps and goes to all the final drum corps competitions each year. Kitty hopes to tryout for one of the big drum and bugle corps this summer. Her goal is to become a member of a big, well-known drum and bugle corps.

Kitty likes to twirl—whether it's batons, rifles or sabers—as long as it's twirlable. She won individual ribbons in rifle and flag competitions at summer camps.

She is undecided about her future. She isn't sure about college but if she does go she plans to take night classes. She prefers to become involved in instructing band or drum and bugle corps fronts.

Kitty moved to the Lake-Lehman area with her family from New Jersey when she was in third grade.

She likes Lake-Lehman because it is a small school and more important, because Lake-Lehman brings in top honors in all activities, a tremendous effort for a small school.

Kitty said that during the competition in Georgia, the

Kitty Houssock

band dedicated its performances to Sue Paci, freshman member of the band, who is a patient in Philadelphia with Leukemia.

She would like to see more cooperation among

advisors in scheduling activities so the students would not have to worry about which activity to select but would have an opportunity to participate in more than one.
