

IN THE SPOTLIGHT

Carole Kwasnik

Carole Kwasnik, daughter of Mr. and Mrs. Fred Kwasnik of Dallas, she is enrolled in the academic course. Following graduation in 1980, she hopes to attend Arizona state to study lab technology.

Carole has two older sisters, Evelyn, student at University of Pittsburgh; and Barbara, married and living in Arizona.

Although she is not a native of the Back Mountain, Carole enjoys this area a great deal. She moved to the area with her parents and sisters from New Jersey eight years ago.

Active in school life, Carole is a varsity strutter. She has been a member of the basketball and softball team for the past two years. This year she was junior class treasurer, member of the student council and also a member of the junior steering committee.

Carole also played field hockey in 10th grade. In basketball she plays guard and in softball, Carole plays in the outfield.

This year she has been selected as a student volunteer for the United Way and is eagerly looking forward to working with some of the agencies this summer.

When not involved in

school activities, Carole listens to a lot of music from classical to the latest disco. She loves the seashore and usually gets there three or four times each season. Carole also likes down hill skiing during the winter.

Carole is a member of Rainbow. She enjoys being with children and teaching them. Carole spends a lot of time with the children in her neighborhood. She likes sports and plays some tennis. She likes swimming and although she prefers the ocean also likes pool swimming.

Carole believes Dallas is distinctive because the teachers help the students a lot and believes that Dallas has some of the best teachers. She finds the school very well organized and says that school functions are run well.

"The students get along well," she said "and this year there was excellent school spirit. The pep rallies improved a lot."

However, Carole believes that the classes at Dallas High School should mingle more and students should get to know each person. She advises all of the students to work to make next year's senior year better than ever.

This summer she hopes to find a job, serve as a volunteer and just relax.

Joe Levi

Joe Levi, son of Mr. and Mrs. Joseph Levi, Jr., Chase Road, Shavertown, is a senior at Lake-Lehman High School.

In the Post Spotlight this week, Levi has two sisters, one, Mary Anne is older, married and living in Wyoming Valley; Debbie is younger and is a fourth grade student at Lehman-Jackson Elementary School.

Levi has been active in track for the past three years running the mile and two-mile events. He has also been a member of the school's cross-country team for the past two years. He lettered in both sports each year that he participated.

Vice president of the senior class, Levi occasionally is named to the high school honors list. This year he also was stage manager for the senior

play. Levi is a member of the Key Club, Varsity Club and the Ski Club. He was among this year's graduates who went on the class trip to Washington.

Modest about his many activities during the school year, Levi's popularity among the other students is evident by the way he is greeted by the others in the school, students and faculty members.

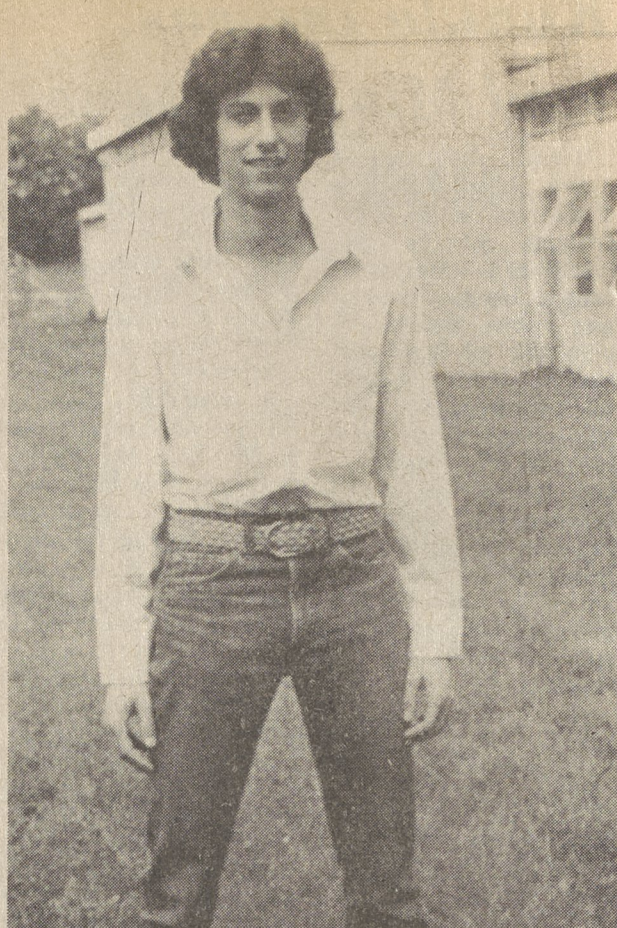

When he has time, Levi enjoys down hill skiing and running in marathons. He also likes camping and hiking. Levi goes fresh water fishing and goes hunting for small game or deer. This past season he shot a nine-point buck, his first one.

Levi works part time at Chase Nursery.

Following graduation this weekend, Levi plans to work during the summer then attend Penn State's Wilkes-Barre Campus in the fall where he hopes to earn an associate degree in electrical engineering.

Levi believes that there is more school spirit at Lake-Lehman than at most large schools. He also said the students and faculty seem to be closer to one another than in larger high schools.

He would like to see more activities for the students and perhaps a student lounge, and more freedom overall for seniors.

Joe Levi

INDUSTRIAL ARTS AWARDS--This year, for the first time, Dallas School District presented awards to the two outstanding students in the high school's industrial arts program. Both students were presented gold medals and certificates of achievement by Edgar Hughes, high school principal. Left to right are Mike Kalinosky, woodworking achievement; Russell Owens, industrial arts instructor; and Ken Kuderka, automotive achievement. (Photo by Charlot M. Denmon)
