

Carol Marker applies artistry in decorating

by Joan Kingsbury
Carol Marker enjoys using an artistic approach to decorating. As owner of New World Design, Carol has had many opportunities to decorate artistically for her clients. An alumna of Delaware Art Academy, where she studied for six years, Carol has an extensive art background. She also studied art privately from

Ed Loper of Wilmington, Del. Several years ago Carol became interested in decorating and decided to start her own business. After acquiring her own library, she began working out of her home. Following four years of operating a home-run business, Carol opened her shop located in Shavertown two years ago. New World Design provides complete interior designing and decorating

specializing in windows and walls. In addition to decorating, New World Design is also in the custom drapery business. Carol loves the look of wallpaper, so she has about 300 catalogues of wallpaper to show her customers.

Carol's husband Rich also works in the business with her on a part-time basis. Rich is also a full-time employee of the West-

moreland Club where he is bar manager. Although Rich has no formal artistic training, he is an accomplished portrait artist.

One of the most conspicuous projects Carol has done is decorating the interior of Franklin's Restaurant. A map of the Back Mountain pointing out various spots of interest is impressive. The building has been in its present

location a number of years and since the Back Mountain is a family community, Carol and Rich felt a map of this type would be of interest to area residents and visitors as well.

Carol likes to use other peoples talents in decorating. The map was drawn by Sue Hand of Dallas. Ralph Hazletine, another area resident provided old area pictures dating back 60 years ago or more which are on display in Franklin's Blue Room. When decorating Pickett's Charge, Rich painted the portrait of Major Pickett.

Carol served on the church council and worked with the social ministries at St. Paul's Lutheran Church prior to her business venture. But she no longer has as much time to spend in community involvement. One church project she did complete recently was sewing all of her pastor's clerical robes.

Any free time Carol and Rich have they prefer to spend with their family. Andrea is living in Schwabach, Germany, where her husband is in the service. Andrea, her husband and their four month old son Louis will be returning to the United States July 10.

This will not be the first opportunity, however, the

Markers have had to meet their grandson. Since both Carol's and Rich's grandparents were born in Germany, when Louis was born, it just seemed appropriate to visit there. Kathy is planning to be married in September, so Carol is busy working on her wedding gown. David is in the Navy stationed in California. Richie, Carl and Laurie are junior high school students.

Carol's hobbies include oil painting, quilting, sewing and restoring antiques. Both she and Rich enjoy vegetable gardening. Carol raises domestic rabbits.

Celebrations with family and friends are very enjoyable for the Markers. Every year Carol and Rich hold an Oktoberfest for their friends. Carol is looking forward to her grandmother's 92nd birthday party this summer when a large celebration is planned. Perhaps it was from her grandmother, who earned an art scholarship at the age of 16 (an almost unheard of feat in those days), that Carol gets some of her artistic ability.

Andrea is also a commercial artist. Upon her return from Germany, Andrea plans to work at New World Design.
