**NATIONAL FLOOD INSURANCE PROGRAM**

Proposed Flood Elevation Determinations  
Agency: Federal Insurance Administration, FEMA.

**ACTION:** Proposed Rule.

**SUMMARY:**

Technical information or comments are solicited on the proposed base (100-year) flood elevation listed below for selected locations in the nation. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain for participation in the National Flood Insurance Program (NFIP).

**DATES:**

The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

**ADDRESSES:**

See table below.

**FOR FURTHER INFORMATION CONTACT:**

**SUPPLEMENTARY INFORMATION:**

The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for selected locations in the nation, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 44 CFR 67.4(a) (presently appearing at its former Title 24, Chapter 10, Part 1917.4(a)).

These elevations, together with the flood plain management measures required by Section 60.3 (formerly Section 1910.3) of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The Community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

Pursuant to Motion presented to the Court on March 11, 1980, by counsel for George M. Adams and Eleanor Adams, his wife, hearing has been scheduled in the action for April 21, 1980, at 10:40 AM in Court Room No. 6, Luzerne County Court House, Wilkes-Barre, Pennsylvania.

You are further notified to appear and defend the action within twenty (20) days from the publication hereof, and that in default of appearance or defense to said action a Decree of quiet title may be entered that Plaintiffs have a valid and indefeasible title to said premises against you and that you will be permanently and perpetually enjoined from impeaching, denying, attacking or in any way setting up any claim or title to said premises unless you bring an action in ejectment or such other action that the Court may direct within thirty (30) days from the date of the said Decree.

If you wish to defend, you must enter a written appearance personally or by an attorney and file your defenses or objections in writing with the Court. You are warned that if you fail to do so, the case may proceed without you and a judgment may be entered against you without any further notice for the relief requested by the plaintiffs. You may lose money or property or other rights important to you.
