Lake-Lehman High School senior Ron Swingle is a student in the general studies program at the high school. He is the son of Ronald and Sandra Swingle of Noxen. Ron has a sister, Cynthia, ninth grade student at Lake-Lehman.

Following graduation from high school, Ron plans to attend Millersville State College and major in industrial education.

This week's In the Post Spotlight Student at Lake-Lehman, Ron is a member of the 1981 District II, and Wyoming Valley High School Wrestling Conference championship team.

Ron started wrestling in elementary grades and continued throughout junior and senior high school. During his junior year he wrestled junior

varsity and this year was a member of the varsity team.

In baseball, he plays catcher or shortstop. Ron started playing baseball in Little League. Last year he was a member of the high school's varsity team and will go out for the team again this season.

He also is an honor roll student and was in the homecoming where he escorted Bonnie Forster.

During the summer months, Ron plays in the Back Mountain Softball League. In his leisure time, he also helps his father with the elementary wrestling program at the Noxen Elementary School.

Ron enjoys all kinds of athletics including ice skating, roller skating, swimming, basketball

and football.

He likes to listen to music, particularly hard rock. He has enjoyed trips to Canada and to West Virginia.

Ron said that at Lake-Lehman High School, there is more unity than in most schools. "Everyone takes an interest in everyone's activities. We also are very proud of wrestling and basketball teams," said Ron.

He said that the faculty and administration are to be commended for the time and effort they give to help the student both in their studies and with personal problems.

He believes it would be appreciated by the students to have outdoor study halls and outside lunch breaks especially now that the weather is becoming milder.

John Ash

John Ash is the son of Mr. and Mrs. Robert Ash of Trucksville. He has a sister, Pamela, a 5th grade student. John is a junior in the college prep program at Dallas High School and this week's In the Post Spotlight student.

John has been a member of the Dallas High School band for the past six years as a trumpet player. He also plays in a jazz band, which is a small group of the high school band members who play for dinners and banquets.

Just recently, John participated in the CPR class where he received certification in CPR. He also is certified in first aid.

After graduation John

plans to attend college. He plans to major in biology, music or the medical field.

In his leisure time, John is a member of the Kingston Twp. ambulance and the Trucksville Fire company. He also enjoys swimming, hiking, camping, playing baseball and especially listening to music. His favorites are recordings by trumpet players Maynard Ferguson and Chuck Mantione.

As a traveler John has visited most of the eastern coast states and admits he particularly likes Florida.

Good comments flourish from John for the Dallas academic program which he says "has a fine academic program--e-

specially the math program." "The band leader, who is in the process of rebuilding the band, offers a good music program to the students."

However, he does say he would like to see the administrators re-evaluate the music program so students could benefit more from that department.

The only suggestions John has to make about more benefits for the students of Dallas is that certain elective programs such as a swim team and other such programs would be appreciated by the students. He also feels the students should be able to select courses more freely.
