

On the West Side

West Side Anniversaries

FIELD RENAMED—President Nick Gushka stands underneath the new sign painted on the pressbox above the refreshment stand on the Swoyersville Little League Field on Hemlock St.

Post 644 receives tribute

Nick Gushka, president of the Swoyersville Little League gave recognition and appreciation by renaming the field in honor of the Andrew Lawrence American Legion, Post 644 and for

their continued cooperation in the use of the field and land since 1962 when the Little League was built. He paid tribute to Post 644 for contributing to the welfare of the youth of the

Swoyersville Little league for the past 20 years. This gesture displayed by the Swoyersville Little League towards Post 644 is in conjunction of their 25th anniversary celebration.

Included were students within an area of seven countries. For this outstanding achievement, Gary was honored at a dinner held by the American Chemical Society. Gary is the son of Mr. and Mrs. Theodore Fischer, Swoyersville. Gary is pictured with his Chemistry teacher, Mrs. Joan Fladd.

FAMILY DENTISTRY IN THE BACK MOUNTAIN

It started in 1968 when Dr. William E. Watkins opened his dental practice next to McCrorys in the Shavertown Shopping Center with one dental nurse. Four years later he was joined by Dr. Leonard C. Medura and his partnership expanded. During the next few years the doctors and increasing staff out grew the office and this resulted in the construction of their present, new facility - The Back Mountain Professional Building on Route 309.

The dental practice presently consists of four dentists and twelve full time support and dental personnel.

A full range of comprehensive dental care from pediatric to geriatric dentistry is offered. With this type of service in mind, the 4500 square foot office was constructed at ground level. This easy access, without any stairs, allows them to care for the physically handicapped as well as those confined in wheel chairs.

The technique employed by Dr. Watkins and Dr. Medura to cap teeth has received wide acclaim, and other dentists visit the office regularly to observe the procedure.

Continuing education is also a very important part of the office philosophy. In this regard the doctors and staff recently attended an intense six day seminar in Reno, Nevada that covered the newest concepts in dentistry.

When asked to what they owed this extraordinary growth, the doctors had no special answer other than that they and the entire staff try to do their best and try to treat the patient as they themselves would like to be treated.
