

Summer Fun at Harvey's Lake

BY SANDRA SERHAN
Summertime excitement is pulsing amongst the residents and visitors to our beautiful Lake. One can catch a glance at the skills of Jack Davis hang gliding then descending on skis to return to his Lakeside port.

Plans are now on the work table for the community to participate in the third annual Harveys Lake Day activities. This unusual event is designed solely to emphasize our

community pride and add a holiday to the summer season. The date is August 29, the last Sunday in August. An open parade for anyone to join will form at 12:30 at the Sunset parking lot. It departs Sunset at 1 p.m. and proceeds around the Lake with an overlay of two hours for one-way traffic. So if the bike riders would like to follow, or any four legged creatures, they may do so.
Miss Harveys Lake 1982

will be sought. Any young lady, of 15 years to 21 may register. They must be affiliated with Harveys Lake through education, employment or residence. The girls will be judged on personality, poise, appearance, and other necessary pageant qualifications. Our reigning queen of '81, Miss Brenda Barbara has represented Harveys Lake many times since the bicentennial. She also was asked to participate

in the Miss Pennsylvania Pageant and did so in February. You may look for her in the upcoming parade. Let's hope it doesn't rain! A rain date is impossible, but a two hour delay is most likely to solve any weather hazards. So let's do it again!

The Fireman's Fair was a success according to chairman, Jim Ward of Warden Place. Jim and Grace Ward worked quite hard along with all other faithful fire company members to produce a fun and festive three night affair. As well as benefiting our fire company who always is on the spot to help, we had a great time. I got a kick out of the thousands of potato pancakes and hundreds of funnel cakes the Shonis' were able to flip. Too bad I'm on a diet. Or I could have spoiled the whole show. They wish to thank all who helped and hope for continued success next year.

The Lions Club members are gearing up for their annual Chicken Barbecue. I'm glad I'm not a chicken. They roast the best and make Colonels Sanders jealous with a mouth watering, value's worth of on-the-spot prepared wholesome food. This will be my fifth year to attend another fine community festivity. They'll have a meeting Wednesday to finalize plans for the Aug. 1 event under the pavillion at Hanson's Park, the same place it's always held. So if you need tickets, see a Lion's member or call my number.

You can't miss the fine experience of Harveys Lake's fine gourmet spotlight on the Lake at Sunset Beach. Anthony Magistro, armed with a new chef, Jeff Seeben are making a landmark in dining history. Jeff Seeben of Forty Fort, formerly was chef instructor for the culinary arts program at Luzerne County Community College. He is a graduate

highlights with much more to happen. So Antoine's is an excellent oasis from day to day complexity.

Don't forget your inspection number four is due on or before July 31. I have wondered why they never inspect the driver. A person should be checked for vision, ability, performance and general knowledge of driving safety. From time to time we forgot the important details. Soon, the school buses will roll with children aboard. So be careful of these little road rants, since they appear out of nowhere. A good thought, too; is no matter how well your turn signals work, they aren't working well unless you use them. So get your car inspected and check yourself out since a life or more may depend on how capable you are to handle the wheel. Wouldn't it be great if the state enforced a five year driver's exam to prove driving performance. The insurance companies might just re-evaluate rates per individual.

I have a tough time with my car. The other day in the center of Dallas at the light, my tire went flat. So when green meant go, I went flat. I pulled into the old station and got the jack and spare and the entire routine. This maiden in distress had a helping hand from a fellow named "Mike". I'd like to thank him for budging rusted lug nuts. I got the tire on, put everything back together, and trying to drive forward, found that the spare in my trunk was the wrong tire. Luckily I had not removed my snow tires and had the replacement summer tires in the backseat. Testing the first tire found it was flat. Finally the third tire, was the perfect spare. Be prepared for the worst. If anyone is in need of firewood I have some to give to someone in need. Have a great and shining day!

of the Culinary Arts and Hotel and Restaurant Management Program at L.C.C.C. He graduated from the Culinary Institute of America in Hyde Park, N. Y. Chef Seeben has been a chef, souchef, and cook in various restaurants, resorts and country clubs in Northeastern Pennsylvania. With these outstanding credentials, the owner, Anthony Magistro and his capable

staff have enhanced the theme of excellence to all gourmet palates from the Poconos to the Endless Mountains.

With a backdrop of blue water and fresh breeze, it's a fine ride to Harveys Lake. On a hot day on any day of the week you can cool off and relax with the new air conditioning in their quiet atmosphere. Starting Aug. 1, on six nights of each week, all but Sunday, there is en-

tertainment to lend an ear or to dance to and dine. With a variety of musical repertoire either in the Lounge upstairs or down, they have pleased the ears of thousands. So, with a fine menu and cocktail lounge, and yet an array of name entertainment, "Antoine's On the Lake" has much to offer. Popular names like Chick Reeves on weekends and Bobby Baird on Wednesdays are
