FOR SALE

If you decide to purchase a phone from us, we can bill the total purchase to your telephone account or bill you in three monthly installments. You may also purchase your phone with check, MasterCard™ or VISA®.

And you may choose to purchase additional telephones for yourself or as a gift for someone else, by calling or visiting your local Commonwealth Service Center.

Can I own my own phone?

That's right.

Because of new FCC regulations, Commonwealth is offering single line residence and business customers the option of buying the phones now being rented from us. How many phones you purchase is up to you. You may buy all the phones on your premises. Buy only one phone and continue to rent the others. Or you may continue to rent all your phones. The choice is yours. This offer applies to the purchase of basic telephones only. This means that telephones with special keys to pick up more than one line, or other features, are not included in this promotion.

What's the difference in cost if I buy instead of rent?

If you buy your phone, your monthly telephone set charge for that phone will be discontinued. But other charges will continue to apply, such as charges for local and Long Distance calling and any charges for telephones that are still being rented from Commonwealth Telephone Company. If you purchase a pushbutton telephone, the monthly set charge will be eliminated, but the pushbutton line charge will continue to apply. Likewise, if you have features such as Call Waiting or Call Forwarding, you will still be charged for those services.

What about repairs?

Phones that you now have in service will have a 30 day limited warranty period after they are purchased. Additional telephones that you purchase from Commonwealth have a one year manufacturer's warranty. Effective May 1, Commonwealth will honor a six month limited warranty on new and refurbished telephones purchased from the retail inventory. After the warranty expires, you will be charged for any repairs needed. The minimum repair charge is \$15.00. Any extensive repairs are quoted on a time and material basis for approval prior to repairing the phones.

Here's what it costs to buy any of the telephones listed below.

In the following chart, Column A is the price you'll pay for a phone that you already have in service.
