PHOTOS: Top left: The model breaker at Eckley Miners Village, one of four sites of the regional Anthracite Museum Complex. Eckley is a true living history museum; it preserves the lifestyle of the early miner in exhibits and various structures.

Center left: One of thirty-three waterfalls at Ricketts Glen State Park. Seven miles of trails parallel streams as they course their way down the mountainside to create the waterfalls.

Bottom left: Sailboating is a popular sport at various regional lakes. Harveys Lake, Pennsylvania's largest natural water body offers all types of boating and related sports. Camping, swimming, picnics, an amusement park and special events are all available at Harveys Lake.

Bottom right: Lehman Horse Show Grounds is the site of the popular Lehman Horse Show in early July; the Jonathan Davis Horse Show, in mid-August and the 4-H Horse and Pony Roundup in late August. See events schedule for details.
