Dallas Post/Dan Walsh  
Shown here are the individuals who have combined their efforts to eliminate a road hazard in Kingston Township. From left, Mark Kunkle, Kingston Twp. Manager; Herb Hill, Chairman, Kingston Twp. Board of Supervisors; Ruth Ann Balla, manager, Luzerne County Conservation District; Wallie Shoemaker, project contractor; and Chuck Dennis, Conservation Technician for the USDA Soil Conservation Service.

### Hazard is Eliminated

Federal, county and local agencies combined efforts with a private individual recently to eliminate a road hazard. Supervisors of Kingston Twp. were plagued by a drainage problem during the spring and fall and with an ice-build up during the winter along a section of Church Road. Mark Kunkle, Township Man-

ager, explained the problem was two-fold as a long sloping field drained to a steep bank where no drainage ditch could be established because of a stone wall bordering the road. Hillside Dairy Farm, who owns the field, agreed to install conservation practices in order to reduce the amount of runoff from the field.

Charles Dennis, Conservation Technician for the USDA Soil Conservation Service surveyed the problem and designed terraces for the field. The terraces, which not only reduce runoff but also control soil loss, were installed by Contractor Walter Shoemaker. The terraces will be planted in corn by Hillside Dairy Farm.

### Society Plans Arts Fair

The splendor of the grounds of Court House Square, Tunkhannock again will welcome arts and crafts fans for the Sixth Annual Arts and Crafts Fair, sponsored by the Wyoming County Historical Society.

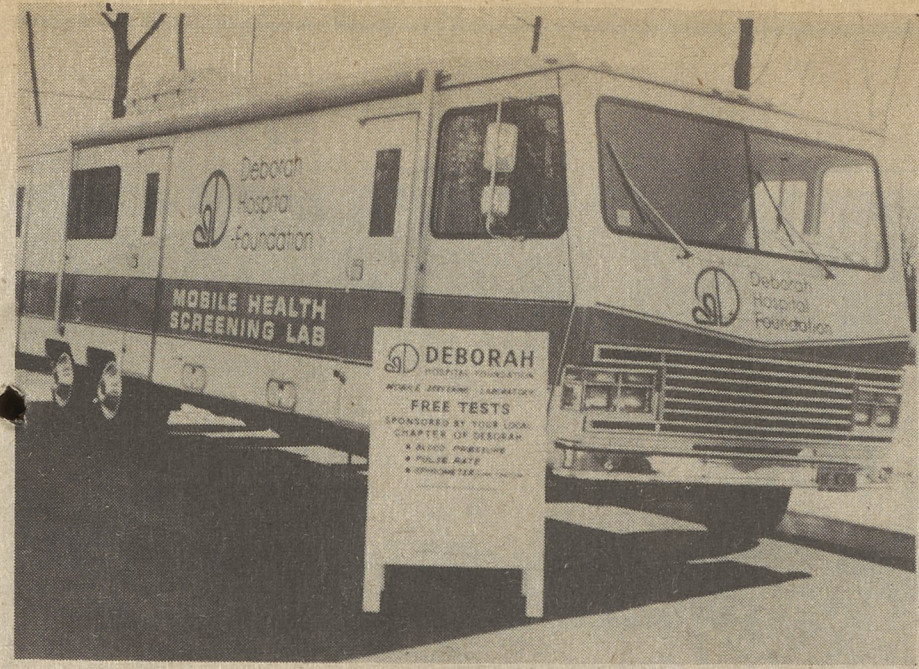

Saturday, July 9 will see more than 100 artists and craftspeople exhibiting their work in the lovely setting. Many of the artists will be the same as in past years, and there will be a number of new exhibitors to the show. Some of the work will include: watercolors, prints, oils, pottery, leather, jewelry, pillows, clothing, quilts, metalwork, woodwork, toys, dolls, stained glass, soft sculpture, weaving, plus many others. The fair will open at 11 and run until 5.

Throughout the day, musical entertainment will provide a lovely backdrop to the exhibits. Performing will be: Web Spinners, (a modern western square dance club from Trucks-ville) at 2 p.m.; the Tunkhannock Chapter of S.P.E.B.S.Q.S.A. (Men's

Barbershop Quartets) will be featured at 3 p.m. and the Tunkhannock Methodist Church Hand Bell Choir will fill the air with their music at 4 p.m.

The events will begin at noon with the family pet parade. There will be categories for cats, dogs and critters. At 1 p.m. the youngest member of the family can be shown off in the Baby Parade. There will be age groups for 0-1, 1-2, and 2-3 for boys and girls. Registration for each of these events will begin one-half hour before the scheduled time on the Washington Street side of the Square. The day's

events will be concluded with a drawing for the Raffle items so generously donated to the Historical Society. The Society will again provide family prices food. There will be all time favorites like hot dogs, hamburgers, pizza, sausage sandwiches, funnel cakes, assorted homemade pies, fruit punch and a variety of canned soda. In case of rain the fair will be at the Clifford Roslund Elementary School building. From the red light in center of town head north on Rt. 29, then take the third right off 29 to the school.

Testing Van  
Shown here is the Deborah Hospital Foundation Mobile Health Screening Laboratory which will be at the Wyoming Valley Mall July 6 and 7.

### Mobile Laboratory Visits Wyoming Valley July 6, 7

Early detection of blood pressure and lung disorders, a key to prevention of serious medical problems, has been made easier because of the Deborah Hospital Foundation Mobile Health Screening Laboratory. Residents of Northeastern Pennsylvania will first have access to the 38 feet long poplar white van which will be at the Wyoming Valley Mall on July 6, from 12:30 p.m. to 7 p.m., and July 7, 10 a.m. to 6 p.m. Its visit to this community is sponsored by the local Pennsylvania Northeast Chapter of Deborah Hospital Foundation.

During its stay, the public can take a series of free personal blood pressure and lung functions tests and can view films on the prevention of heart and lung disease. These painless tests are intended to spot signs of irregularities.

Deborah Hospital Foundation is organized for the sole support of the Deborah Heart and Lung Center in Browns Mills, N.J., which is a 155-bed hospital specializing in diagnosis and treatment of heart and lung disease. With its internationally respected staff and exceptional facilities, Deborah is one of the country's leading centers for heart surgery.

"It is our hope," says Stanley H. Fryczynski, Jr., President of Deborah, "that the Mobile Health Screening Laboratory

traveling constantly through our cities and towns will alert many people to the need for medical treatment."

Deborah's goal is to provide the highest quality of medical care to everyone who needs its specialized services. Treatment is without distinction as to a patient's race, religion, national origin or ability to pay. Since its founding in 1922, not one of its patients has ever received a bill.

Construction and operation of the mobile laboratory is made possible through a special grant by Deborah Hospital Foundation and the volunteer assistance of its 46,000 member in 300 local community chapters.

Henry Hess of Demunds Road was a patient in the Veterans Hospital, Plains Township, at presstime. Other area patients include Hilbert Brown of Carverton at Nesbitt Memorial Hospital in Kingston, and John Cyprich, Jr. of Orange, who was a patient in Wilkes-Barre General Hospital.
