

Honeymooners Love Local Resorts

The Pocono couples resorts have become world-known for making honeymoon dreams come true. Located in some of the most scenic areas of the Pocono Mountains in Pennsylvania, these resorts have grown on the reputation of catering to every whim of honeymooning couples.

The natural beauty of the Poconos attracted young couples in love beginning in the 1940s. In an effort to meet the special needs of these people, several resorts were built exclusively for honeymooners. Today there are nine magnificent resorts in the Pocono Mountains especially for couples. After forty years of hosting couples only the Pocono honeymoon resort owners anticipate and create glamorous environments in which love can grow.

Things never seem to remain the same for very long at the Pocono couple resorts. Although built originally for couples on their honeymoon or in the first year of marriage, the resorts have gradually opened to any couple. Resort owners realized that what they offered to people at the beginning of married life could also help rekindle love in a couple married many years or help love grow for a couple just building a relationship.

Along with changes in attitude came constant changes in the amenities offered to guests. Honeymoon suites at first looked like any attractive suite in any other hotel. Then, in an attempt to create a special environment for young lovers, round beds and mirrored walls and ceilings and opulent accessories were added. Next

came heart-shaped sunken bathtubs. Now it seems that each year some new form of luxury is discovered and included for the enjoyment of couples in love.

As a result, couples who honeymoon in the Poconos have an extensive array of suites from which to choose. Beds are round, hexagonal or heart-shaped and can be pillared or mirrored. Bathtubs, besides coming in many shapes, can be elevated or sunken. Rooms can include a sauna, steam bath, hydro-massage tub, individual indoor pool, fireplace and private sun deck. The suite may be one spacious room or be divided among several levels. A couple can even choose a decor to suit their mood, including colonial, French provincial, ultra-modern and Mediterranean.

Even though the honeymoon suite is the focal point of a couple's stay, the Pocono couples resorts offer a myriad of activities for lovers to enjoy together. Spring and summer are an especially lovely time to spend in the mountains. Warm days and cool nights entice couples to try the many outdoor sports that are available. Depending on the resort, couples can swim, golf, play tennis, fish, water ski, bicycle, try archery or shuffleboard, go horseback riding, join in a game of basketball or volleyball, or try sailing, canoeing or paddleboating. Indoor sports arenas offer many of these same activities during inclement weather, plus racquetball, ping pong, roller skating and miniature golf.
