### Check presented

With the cooperative efforts of the Dallas Township faculty, the Westmoreland faculty and the Dallas School District Administration, a benefit volleyball tournament was held recently in the Dallas Township school gymnasium. The support of the boys and girls of both schools and all those in attendance made it possible to present a check in the amount of \$280 to the Ronald McDonald House in Danville. Shown here, from left, are Jean Uter, Dallas Township building coordinator, presenting the check to Tina Kocher, McDonald's representative.

### Students study reptiles

The kindergarten classes of Mrs. Callahan, Mrs. McCain and Mrs. Moran of the Dallas Township Elementary School had the opportunity of having an interesting program on nature presented recently. Mr. Spear of the Eberhard Museum of Scranton gave a talk on reptiles.

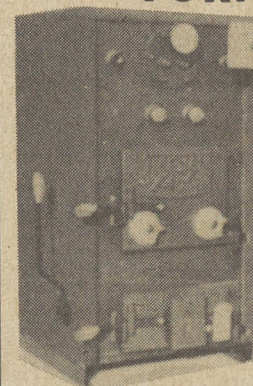

Mr. Spear told the children that reptiles are not good pets and have a bad reputation due to lack of understanding by children and parents alike. He went on to describe the four groups of reptiles - lizards,

alligators, turtles and snakes.

The program was a great success with the children as Mr. Spear had examples of all four groups of reptiles for the classes to examine closely. Fortunately for the students and teachers, the reptiles were stuffed and allowed the children a greater opportunity for a hands-on experience.

Special thanks to the Dallas Township P.T.O. for providing this enrichment program to the kindergarten students.
