### Financial aid is available

Deadlines are quickly approaching for summer and fall financial aid, according to The Scholarship Bank.

Students with financial needs should begin now to investigate some of the more than 25,000 private aid sources, according to Steve Danz, Director. These funds are available to students with interests in a number of fields, and many do not depend on demonstrated financial need, as do state and federal funds.

The Scholarship Bank is the largest private scholarship bank in the country for undergraduate and for graduate grants and loans. The computer can help you find sources designed just for you, based on your major, occupational goal, geographic desires, type of aid requested (scholarships, loans, summer work), and special skills and hobbies. According to the director, the computer guarantees each student at least 50 sources of aid. It has been estimated that each package of aid represents approximately \$20,000 in potential money for college. Private aid comes from America's largest foundations, corporations, unions, and private donors and totals approximately 500 million dollars, or one fourth of all available aid. Thus, it is an extremely valuable addition to the private and state moneys available. As an example of the depth of the search, the bank reports one student found 36 sources for the most unusual major of "deep sea diver". Students wishing to use the search should send a stamped, self-addressed envelope to The Scholarship Bank, 10100 Santa Monica 2600, LA CA 90067.
