Former officers

Shown here in their former offices at the Dallas Borough Building are employees of the Dallas-Shavertown-Harveys Lake-Noxen Water Companies. From left, Flo Rutkowski, accountant; Lisa Jarenski, receptionist; and Jean Fetsko, office manager.

Course set

Joan Krause, a registered dietician, prepares a casserole for microwave cooking. Ms. Krause will offer recipes for microwave cooking at a special non-credit course to be held at College Misericordia on Wednesdays beginning April 3 through April 24 from 7 to 9 p.m. "More Microwave Cooking" will focus on increasing the use of the microwave oven through advanced techniques and recipes. The emphasis will be on actual cooking as opposed to defrosting and reheating. To take advantage of this special course, call Misericordia's Office of Special Programs at 675-2181, ext. 331. The course is open to the public at a cost of \$26 and \$10 for materials.

Show planned

"A Touch of Class" is the theme for the annual Fashion Show sponsored by the Mother's Club of Bishop O'Reilly High School to be held in the school auditorium Sunday, April 21 at 2 p.m. Fashions will be presented by the Clothes Horse. Tickets are \$3.50 each and can be purchased at the door. Cost includes dessert and coffee. Forty door prizes will also be awarded. Shown here, from left, are Sally Lehman, chairman; Lucille Luksic, tickets; Alice Naylis, models coordinator. Other committee members not shown are, Betty Segrave-Daly, tickets; Marilyn Gregorski, publicity. Isabelle Pisaneschi is honorary chairman.

King's sets registration

The Center for Part-Time Studies at King's College will hold an early registration period for summer courses beginning Monday, April 8, in Room 109 of the Administration Building.

Both day and evening sessions of classes will be offered in a variety of academic areas. People wishing

to register can do so from 8:30 a.m. to 7 p.m. Mondays to Thursdays and from 8:30 a.m. to 4:30 p.m. on Fridays at the Center.

For more information and a complete schedule of classes to be offered, call the King's College Center for Part-Time Studies at 826-5865.

Students take part in Penn State engineering program

Students from seven area high schools recently participated in the first of two Engineering-Technology Career Days at the Penn State Wilkes-Barre campus in Lehman.

Students met with faculty, staff, students and counselors in classroom, laboratory and lecture activities designed to allow them to explore career options and to make more informed career choices.

Guest speaker JoAnn Post, a telecommunications graduate of the campus who is currently advertising coordinator for Commonwealth Telephone Enterprises, spoke on the "The Job Outlook and New Technology." Patty O'Neill, campus counselor, presented "Is Engineering-Technology For You?" Specific areas students explored

were management information systems-computers, biomedical equipment technology, electrical engineering technology, mechanical engineering technology, surveying engineering technology, and telecommunications technology.

Career Days are being sponsored by the Opportunities in Technology program at the campus which, under the direction of Helen Stager, encourages under-represented populations, especially women, to pursue careers in the rapidly growing technology fields.

The second high school Career Day will be held Tuesday, April 2. Similar sessions are planned for junior high school students on April 11 and 12.

Musto

(Continued from page 1)

extra money. And Anheuser-Busch is now looking into ways of recycling glass bottles. That will come."

Raymond Kern, a local retailer in the Dallas Shopping Center concurs with Falcone's thoughts.

"I can see both sides, but I don't think the deposit law would satisfy anything," Kern said. "It would raise the cost of the liquid because there would be twice as much handling, and there would also be a huge sanitatin problem. We don't have enough space to store all the empty containers, and we don't want flies and bugs around here. Besides, people want throw-aways. We've been in business for 50 years and now 90 percent of what we stock is throw-aways because that's what sells!"

Proponents for the bottle bill argue that passage of such legislation would especially benefit agriculture and tourism, the two top industries in Pennsylvania. They counter the opposition's

claim that the liquid beverage would cost more by stating that the current cost of throwaways is misleading because the cost of litter clean-up and solid waste disposal is not reflected in their price. They cite the fact that beverages in Vermont, one of the seven states which has passed deposit legislation, are no more costly than those in neighboring New Hampshire, a non-returnable state.

Al Miers, a spokesman for the Pennsylvania Farmer's Association in Harrisburg, says farmers are currently paying a high price for the cost of litter in terms of time spent picking up litter in their fields, cost of damage to equipment from bottles and cans, and even the loss of animals who have swallowed glass or aluminum.

Will Conyngham, manager of the Hillside Farm Dairy Store on Hillside Road in Trucksville, agrees.

"I'm in favor of the deposit bill," Conyngham says. "I can't recall any damage the farm has had to our animals caused by litter, but I know it makes a terrible mess. We have to spend a lot of time cleaning up one of our fields that borders the road on top of the hill, not to mention how often we have to go out and clean up in front of the store. As a retailer for soda, the returns might cause some-hassle for us, but it would be well worth it. Our milk business is done with returnables, and we don't have many problems."

Andy Roan Jr., a Shavertown beverage retailer, says that while he can see both sides of the argument, he is in favor of the legislation.

"Pennsylvania roadsides are among the dirtiest in the nation, and it would help clean up the roads," Roan said. "Besides, I think it would be cheaper for the consumer. It would be a problem for us to stockpile bottles, but if something was set up like the central locations for refunds they have in New York, that would lessen the problem."

The Pennsylvania Federation of Sportsmen's Clubs, whose members consider themselves "keepers of the environment" also backs the bottle bill. Spokesmen for the club say that the sight of PennDOT crews out picking up litter is testimony enough that legislation is needed.

Musto himself, who is chairman of the Environmental Committee for the Senate, announced last week he is still undecided about the legislation.

"We've been hearing both sides," the congressman said. "These meetings are a good way to hear from our constituents and we appreciate the interest. Public hearings will be held locally before the proposed bill comes up for debate."

ROBIN E. RICE

Rice to study in England

Robin E. Rice, a second-year student at Penn State Wilkes-Barre's campus in Lehman, will be spending her junior year of college in England at the University of Manchester this fall.

Robin is majoring in foreign service and international politics and will be studying abroad as part of the Penn State Education Abroad program. Her cumulative average is 3.9.

A resident of Jersey Shore, Robin lives during the school year with friends of the family in Dallas. She is the youngest of seven daughters of Mrs. Miriam E. Rice and the late Howard S. Rice, who was once a resident of Lehman.

Her activities at the Lehman campus include being a writer for Les Mots, the student newspaper; a student representative of the Faculty Library Committee; member of International Circle K; president of the Library Club; and on the Student Appeals Board. Last fall, she played volleyball on the women's team.

PSU program

Shown at Engineering-Technology Career Day at Penn State Wilkes-Barre are seated, from left, Suzanne Graboske, Vo-Tech; David Sedlak, Bishop O'Reilly; Steve Wilson, Dallas; Kevin Zaledonis, Tunkhannock; Dve Radomski, Lehman; and Marie Herr, Vo-Tech. Standing, Terry Knouse, Nanticoke; Matt Cackowski, Hanover; Patty O'Neill, counselor at Penn State Wilkes-Barre; JoAnn Post, guest speaker; Helen Stager, coordinator of the Opportunities in Technology program; and Karen Berlew, secretary.
