## Warm weather is here

As the sun rises higher in the sky and the days gradually get longer, you don't have to glance at the calendar to know that warmer weather is on the way. It also means an increase in outdoor activities. Whether it is getting ready for summer sports or working around the house and yard we should all prepare for these activities intelligently to preserve our good health.

"The most important thing to remember is that you are a year older. If you didn't do much all winter, it will take a little more physical and mental effort to get ready for the things you want to do."

"Start now with a light program of exercises such as walking or calisthenics and work up to the activities you have planned. It will put you in a better frame of mind - and body."
