Northeastern Bank of Pennsylvania announced it will be offering area investors a full-range of tax exempt municipal bonds and other fixed income investments. David L. Tressler, Chairman and Chief Executive Officer of Northeastern Bank said the investments will be offered by Northeastern Bank an affiliate of PNC Investment Company. "Through our affiliation with PNC Investment Company, we are now able to offer both tax-exempt and taxable investments directly to our customers in northeastern Pennsylvania."

Tressler also announced that David R. Johnson, in addition to his responsibilities as Vice President of the Investments Department at Northeastern Bank will be an investment representative for PNC Investment Company.

Johnson said that specific investment services such as coupon clipping, safekeeping and called-bond notification, will also be available to customers.

Regarding one specific investment Johnson explained that municipal bonds offer many investment benefits. For example, the interest earned on Pennsylvania municipal bonds is exempt from federal income taxes, and if you are Pennsylvania resident, interest is also exempt from state and local income taxes. Historically municipal bonds have provided investors with a stable and predictable source of income according to Johnson.

### LAST WEEK'S ANSWER

### Police patrols increase

Pennsylvania motorists will see increased State Police patrols on the highways during weekends this summer.

A Federally-funded program called Summer Slowdown-55, aimed at accident reduction through increased patrol activity, will put an additional 180 patrols on non-interstate highways each weekend beginning July 5-7, and ending September 6-8.

The \$475,000 Federal Grant, received through Pennsylvania Department of Transportation's Bureau of Safety Programming and Analysis, will pay the salaries of the troopers who would otherwise be off duty. The troopers will work extra shifts some time each weekend. (For project purposes, the weekend is defined as the 60 hour period from Friday noon to Sunday midnight).

State Police Commissioner Jay Cochran, Jr., listed the goals of the extra enforcement program; "High visibility of patrols to promote vol-

untary compliance with the 55 mph speed limit; Maintaining an efficient movement of traffic; Prosecution of those drivers found to be Driving Under the Influence; Promoting the use of seat belts and child restraints."

Commissioner Cochran added, "The extra weekend patrols will be scheduled to cover areas where accidents and violations frequently occur. The goal of these aggressive, high visibility patrols is saving lives through accident reduction.
