Second row, Amy Michael, Linda McDonald, teacher; matthew Jacolik, Stephanie Newton, Matthew Barnard, Michael McCartney, Susan McCartney, director; and Luke Kreidler.

Little People Center

'Because we care' is their motto

Staff Correspondent

With the increase of women in the work force so increases the need for quality day care facilities...like the newly opened center above the Back Mountain

Little People Day Care Center began serving the Back Mountain communities on June 25. According to Susan McCartney, educational director, there is a need for quality care in the Back Mountain and Little People is filling it.

The summer program at Little People includes swimming lessons through the Newberry Estates, roller-skating and bowling.

The location of Little People is on the second floor of the old Dallas Borough Elementary School, which is

now the Back Mountain Library. The three classrooms are spacious, brightly painted and decorated and well lighted. The fact that the library is a flight of stairs away is also a plus, according to McCartney. Children are allowed to take out books and are a party of storytime daily at the library. Outside is a large playground suitable for any variety of outdoor activities. The children receive one hot meal and two snacks daily.

The school motto is "Because We Care," which, according to McCartney says it all about the feelings of the people who work at Little People. McCartney believes the child's first few yers are the most important. At the age of 21/2-3 years, children need companionship from others their age, McCartney said. In this way, children learn to socialize and to get along with others, she said.

John Perfetto, proprietor of Little People, requires the teachers at the center to have a four-year degree in Early Childhood Education. Perfetto also owns the Little People Center in Kingston.

Little People is open from 6:30 a.m. to 6 p.m. daily. Anyone interested in visiting the school should call 675-6557 or 675-1717. McCartney said she would like anyone interested to come visit the facilities located at 96 Huntsville Rd.

Incentive financing now available in our area

By HOWARD J. GROSSMAN Special to The Dallas Post

Incentive financing is available for many businesses throughout Northeastern Pennsylvania. Despite the fact that over the last four years federal grants to encourage economic growth have decreased, a whole new system of financial incentives has been created, some through the resources of the Appalachian Regional Commission and Economic Development Administration at the federal level, and many at the initiatives of state govern-

These incentive financing tools have enabled organizations such as the Economic Development Council of Northeastern Pennsylvania to begin to meet the new challenges of the 1980's in coping with the number one priority facing the region, the creation or preservation of jobs. When an examination is made of the opportunities which currently exist to provide either low-interest loans or outside financing at market rates for economic growth, the numbers are astounding.

New programs have sprung up through budgetary changes over the last several years at the state level, plus a whole new array of opportunities developed through the recent passage of legislation implementing the \$190 million dollar economic development bond issue in the Commonwealth.

The Economic Development Council of Northeastern Pennsylvania administers an Enterprise Development Program which enables it to provide technical support to the business and industrial community of Northeastern Pennsylvania and to utilize the variety of resources which have been generated in recent years. Seven different types of revolving loan funds are but a beginning of the process by which such assistance can be provided. Five of these funds are for business and industry and two provide lowinterest loans for housing project

The Ben Franklin Partnership, Pennsylvania's version of high technology with the designation of four Advanced Technology Centers provides great flexibility in encouraging research and development, entrepreneurial development, and training and re-training opportunities to many project sponsors, both public and private throughout Northeastern Pennsylvania.

Free energy surveys exist through the Council's designation as a Regional Energy Center with business and industry enabled to consider new ways to save money and increase profits, thus increasing the likelihood of new jobs.

A small business Procurement Opportunities Program exists whereby assistance is given from the point of information to the point

hopeful approval by a federal agency to provide procurement dollrs through a competitive bidding process to Northeastern Pennsylvania businesses and industries. Thus far, 14 projects have been approved totaling over \$1 million and much more is likely in the

An Export Promotion Program exists in which assistance is given to those industries in Northeastern Pennsylvania desiring to export products overseas and make the burden of going through the process of such ventures easier, more efficient, and therefore, more profita-

These are not the only types of funding arrangements possible. The Pennsylvania Industrial Development Authority Program is a long standing low-interest loan program which has had great benefit to the Northeastern Pennsylvania job picture. This program in addition to the Industrial Development Authority Program provides many ways to stimulate new jobs and preserve existing jobs in the Pocono Northeast. Both of these programs provide below market financing for a variety of projects which will induce new jobs.

A series of programs administered through the Pennsylvania Department of Community Affairs affect downtown areas, housing and redevelopment of blighted sections of communities. The Small Communities Block Grant Program is a source of funding for those local

of completion of an application to its governments who traditionally have

not had access to federal funding. The new \$190 Million Dollar Economic Development Bond Issue provides resources for business and industrial loans, community employee buyout of plants which are threatened with closure, family farm enterprises which require working capital and other types of financing, business infrastructure development projects which will help induce economic growth on the part of a variety of public and private sector sponsors, minority business development financing tools, incubator building financing, and seed capital for venture capital funds, as well as dollars available for recreation projects.

While every effort should be undertaken to encourse some new grant programs for those communities in need of economic development, all of the above loan vehicles as well as others should be examined by the private sector as well as the public sector as opportunities for growth and expansion.

It is only necessary to contact the Economic Development Council of Northeastern Pennsylvania, 1151 Oak Street, Pittston, Pa. 18640 to obtain detailed information on any of the items mentioned. Every community and organization requiring financial assistance should contact the Council for advice and guidance.

(Howard J. Grossman is the executive director of the Economic Development Council of Northeastern Pennsylvania.)

Geisinger Family Health Center Route 309, Dallas Highway

. . . the Geisinger name has been recognized in health care for more than 70 years. The Geisinger Family Health Center in the Dallas Shopping Center brings this same Geisinger Quality close to you in

We are pleased to announce that Robert Yanoshak, D.O., has recently joined Eugene Gorski, M.D., at the Geisinger office in Dallas, providing your family with personal health and medical care.

In this tradition of Geisinger quality care, Doctors Gorski and Yanoshak are supported by: Sandra Cooper, R.N.; Carla Kuznicki, L.P.N.; Georgia Hogan, radiology technician; and Rebecca Votapka, receptionist.

Members of the Geisinger family at the Dallas office are shown, seated from left: Sandra and Carla. Standing: Becky, Dr. Gorski, Dr. Yanoshak, and Georgia

Geisinger Care Means:

• personal, friendly care from your physician • convenient hours in a convenient location • prompt attention from courteous people • comprehensive diagnostic services — such as heart (EKG), x-ray, breathing and hearing tests, and laboratory services • personal attention from your family doctor should you require a hospital stay.

Physicians' Hours: Monday through Thursday: 10 a.m. - 8 p.m., Friday: 10 a.m. - 1 p.m.

Appointments: 675-2000 (Appointments are not necessary but are suggested for your convenience)
