Shavertown church aids hunger-stricken

On Sunday, August 18, during the Morning Worship Service the congregation of Shavertown United Methodist Church was asked to return the "Fish" Banks for World Hunger.

The banks were distributed in July, and all proceeds will go toward alleviating hunger in the United States and abroad through the United Methodist Committee on Relief (UMCOR). Hunger is a major concern facing the United Methodist Church today, and 80 percent of the gifts received will respond to the hunger problem abroad and 20 percent will be applied to domestic hunger-poverty. In many countries the people are suffering from the effects of the erratic weather and acute economic recession.

The hardest hit area, and possibly the most widely publicized, is in Africa, but there are other areas of need as well. The monies received will go to dig wells and build irrigation systems; provide seed and tools; establish nutrition centers and primary health care facilities; teach functional literacy, sanitation, and community development.

The Reverend James A. Wert is pastor and The Reverend Harriet L. Santos is Associate Pastor.

Head Start receives grant

Luzerne County Head Start, Inc. recently received notice from the U.S. Department of Health and Human Services that they have been granted expansion money for the 1985-86 school year. This money enables them to open two new centers.

New centers will be located at the Garrison Elementary School in Shickshinny and the Evans Falls Elementary School in Wyoming County. Sites for the new centers were selected after determining where the greatest need existed for the pre-school program. The opening of the center in Wyoming County marks the first time that children from that county will be able to attend a Head Start program.

The expansion allows for 68 additional children to receive services. Thirty-two children will be enrolled in each of the new centers. The four remaining slots will be allocated to centers which are currently operating in Luzerne County. This brings the total number of children served by the program to 448.

There are a total of 67 Head Start programs in the Commonwealth of Pennsylvania. Of these, 17 received expansion money for the 1985-86 school year. The Luzerne County program received the highest number of expansion slots in the state. The local program was also one of two programs to receive expansion money both last year and this year.

Children eligible for enrollment must be four years of age by September 30th to enroll in the Shickshinny center and four years of age by September 1st to enroll in the Wyoming County center. These dates correspond with school enroll-

ment criteria in the respective school districts. Other eligible factors include that the child must be from a low income family and/or have a handicapping condition. Ten percent or more of the children enrolled in Head Start are handicapped.
