## Program offered

Ernest "Red" Chapman, Security Officer at the NPW Medical Center in Plains Township, recently presented a Fire Safety Program to students in the Radiology Technology Program at College Misericordia in Dallas. In addition to giving a lecture and showing a film on fire safety, Chapman instructed each of the students in the proper use of different types of fire extinguishers. Student Lisa Artman is shown taking her turn at putting out a fire, while fellow students and Chapman look on.

## GATE OF HEAVEN SCHOOL NEWS

MICHAEL FARRIS

APRIL YATSKO

THE FIRST GRADERS are beginning numerous projects for the fall season. They are "pressing leaves" for window display and preparing to work on "Patty and Peter Pumpkin" and "Marvin Monster". They have already completed several science projects and are progressing well in their studies.

### THE SIXTH AND SEVENTH

## King's gets grant

King's College has been awarded \$326,932 to conduct the final year of a four-year federally aided institutional strengthening program.

The funds, granted through the U.S. Department of Education's Title III Institutional Aid Program, will be used by the college this year to continue or to implement programs begun in the first three years of the project. Allocated monies are intended to supplement institutional expenditures and to assist the college in making improvements which would be much more difficult without federal financial help.

This year's grant brings to nearly \$1.5 million the total federal support to the college through Title III funds, including a \$200,000 pilot grant prior to the beginning of the four-year project in 1982. Grant awards in the past three years under the program have been for \$247,000 in 1982-83, for \$351,000 in 1983-84 and for \$370,000 in 1984-85.

This year's activities at King's will include expanding the campus computerized Administrative Information System continuing the development of King's Competency Based Liberal Learning program, continuing the development of new degree programs in computer science, international business and human resources management, and upgrading and expanding developmental learning programs through King's Learning Skills Center.

Based on its successes in the first three years of the Title III Program, King's has been selected as a model for other colleges across the country to follow in the development of their institutional strengthening programs. The administrator of the

King's grant for the previous three years, Academic Dean Dr. Donald W. Farmer, has been invited to deliver the keynote address at the national Title III Conference to be held October 16 in Atlanta. This is the third straight year that Dr. Farmer has been invited to speak at the national Title III Conference.

GRADERS have completed and submitted their projects to the committee for the Luzerne County Folk Festival. We know we will get some ribbons for all their efforts. We do have some budding artists in these classes.

ON TUESDAY, OCT. 1, the second grade class toured the Susquehanna River Lands where they picnicked in the vast, scenic area surrounding the Susquehanna Energy Information Center. They later toured the Center where they learned many new interesting facts about Energy. Later, on the tour bus, they were able to get a close look at the Susquehanna Nuclear plant. They really enjoyed their trip.

MR. WALUTES' EIGHTH GRADE SCIENCE CLASS is conducting experiments on hamsters and plants. One hamster will be fed "junkfood" and later an intelligence test will be given to see if the "new" food affected him. The plants will be compared in a controlled environment (terrarium) and also in an uncontrolled environment (the window sill). The students are very excited about this whole project and are anxiously awaiting the results of the experi-

ment.

THE SIXTH GRADE SCIENCE CLASSES, under the direction of Mrs. Rutkoski and Mr. Simon are also conducting an experiment on plants. They are comparing two sets of plants where the conditions for one set is sunny and warm, and the other set is dark and cool. We haven't heard of anyone taking bets yet, but we seem to think we know which set will survive better.

THE WHOLE SCHOOL IS GETTING READY for the Halloween Fair to be held on Oct. 31 from 11 a.m. on. Since this is Confirmation year for the 8th graders, they are preparing their replica costumes of their Saint whose name they will take for Confirmation. It will be a fun day and the public is invited to come and help us celebrate. We will have food and games and chances, etc. So, put this date down on your calendar.

WE HERE AT GATE OF HEAVEN wish to thank College Misericordia staff who are responsible for the many cultural happenings they have been providing this past year. We do appreciate your efforts and we have been enriched by them. Again, thank you.

## DALLAS SCHOOL NEWS

DAWN ROTHROCK

MICHELE FARRIS

KRISTYN POST

THE DALLAS POST

Send them  
**BACK TO COLLEGE** with a subscription to  
DALLAS POST

Certainly going away to college can be a rewarding and fun experience, but every student, now and then, becomes a bit lonely for the folks at home. A very welcome visitor on campus will be their hometown paper. They'll enjoy reading about all of the local happenings, the scores of local high school games, news of social happenings and much, much more! A college subscription to this newspaper makes a great "going-away gift" and is easy to arrange. Just use the handy form below and we'll speed their first issue on the way so they'll get all the news. If it's a special gift from you, let us know and we'll send them a gift card so they'll know you're really thinking about them.
