### LAST WEEK'S ANSWERS

### 4-H volunteers sought

Did you ever stop to think that you could make the difference in the lives of youth in your community? More than 2 million youth across Pennsylvania are looking for adults who care. Many of them live in the Back Mountain area!

Today's youth are anxious to try new things. They are eager to grow up and be part of the adult world. But youth don't just grow up. They learn from adults who take the time to share their talents and experiences. They learn by trying new things for themselves with someone there to guide and encourage them.

As a 4-H volunteer, you can say "I care" to the youth in your community. You can make a difference in their lives.

The backbone of the 4-H program is its volunteer leaders. Pennsylvania's nearly 15,000 volunteers come from all walks of life. They include homemakers, factory workers, civic leaders, retirees, professionals and older teens. Some volunteers have a specific skill or hobby to share. For those who don't, 4-H professionals provide training that requires no previous experience.

4-H is an informal learning experience for all boys and girls ages 8 to 19. An educational program of The Pennsylvania State University Cooperative Extension Service 4-H is concerned with developing the whole person symbolized by the H's of heart, head, hands and health.

4-H enrolls youth from all backgrounds-urban, suburban and rural. Presently it is the largest youth

program in the United States. Membership in 4-H is free.

Youth in the community need you to share your time, your talents your experiences, yourself as a means of preparing them for the adult world. By being a 4-H volunteer you can touch their lives. Take the first step. Find out how you can become a 4-H volunteer by contacting Donna Skog, Courthouse Annex, 5 Water Street, Wilkes-Barre, Pa. 18711 or phone 825-1704. The Pennsylvania Cooperative Extension Service offers educational programs and materials without regard to race, color, sex, religion, national origin, handicap or age.

### Taking over

Shown here are officials of Nesbitt Memorial Hospital standing in front of the Back Mountain Satellite Center. From left, Kevin Ross, Assistant Administrator at Nesbitt Memorial Hospital; Stanley Lobitz, M.D., Medical Director of Medic I; Michael Lombard, M.D., Medical Director of Medic I; Nancy Kline, R.N., Nesbitt Memorial Hospital Emergency Room Head Nurse; Alice Heffernan, Paramedic; James Johnson, Paramedic; James Urban, Paramedic; James Rosnick, Paramedic Coordinator Medic 302 and John Ash, Paramedic Coordinator Medic I. Absent from photo: Ron Stern, Administrator; Dr. A.J. Klem, Director of the Emergency Room and Dr. A.A. Anzalone, Assistant Director of the Emergency Room at Nesbitt Memorial Hospital.

### NMH takes over MIC Unit

Nesbitt Memorial Hospital has recently assumed full operating responsibility for the Back Mountain Mobile Intensive Care Unit, based at the site of the Back Mountain Medical Center, Lehman-Dallas. The transfer of the MICU was accomplished after discussions were concluded between representatives of the former coordinators, the Dallas Area Fall Fair committee members and the hospital.

Nesbitt Memorial Hospital has always been in the forefront of providing emergency services to residents of the Back Mountain area. The hospital's emergency room renders care to more than 23,000 patients each year and is one of the most active emergency rooms in our community.

The Back Mountain Mobile Intensive Care Unit is a quick response unit staffed by a paramedic and Emergency medical technician and responds to requests for assistance from any of the local community

ambulance units. The patient is transported in the local ambulance vehicle with the paramedic working side by side with the local unit's emergency ambulance staff. The paramedic is trained to place telemetry equipment on the patient to allow the transmission of the patient's vital signs via radio waves to the hospital's emergency room physician. The physician can then direct the patient's care prior to the arrival of the patient at the hospital.

The staff of Nesbitt Memorial Hospital is very proud to accept this added responsibility of providing Mobile Intensive Care Unit services to the Back Mountain area.

A series of meetings have been scheduled between the Mobile Intensive Care Unit, Emergency Room physicians and nursing personnel and individual community ambulances to develop a team approach to achieve the highest form of emergency care for all community residents.

### License plates available

Emergency medical service personnel may now obtain special license plates from PennDOT.

Rep. George C. Hasay said the new plates may be used on the personal vehicles of eligible medical services providers. To be eligible, the vehicle owner must be actively involved in the delivery of emergency medical services with an ambulance service or in conjunction with a hospital emergency department.

Eligible persons must complete a special organization registration plate application form. The form includes a section which must be completed by the chief officer of an ambulance service or a hospital's emergency department director, certifying that the applicant is an active EMS provider. There is a \$20 fee for the plate.

Forms are available at Hasay's district office at 2261 Sans Souci Parkway, Wilkes-Barre (Hanover Township).

## Burning prohibited

Residents of Kingston Township are reminded that a township ordinance expressly prohibits the burning of leaves, branches and lawn clippings in gutters along the township roadways. Burning in the asphalt gutters weakens the pavement structure and causes the gutters to deteriorate rapidly. Each year the township Road Department allocates time for a leaf collection throughout the township. Residents are advised that the leaf collection for this year will be conducted during the early part of November.

Township residents are also reminded that the open burning of wood, tree branches, tree leaves, paper or yard trimmings requires a township Burning Permit. Only one open fire is allowed with each permit. The fire must be controlled at all times and adequate precautionary measures must be taken by the property owner. Burning is permitted from dusk to dawn daily, with the exception of Sunday when no open burning is allowed.

Burning permits may be obtained at the Kingston Township Administrative Office, 11 Carverton Road, Monday through Friday between the hours of 8:30 a.m. and 4:30 p.m.
