Standing, Bob Shotwell, vice president; John Masley, treasurer; and Bob Graver, secretary and publicity.

Dallas Jr. High team wins cage event

The Kingston Township Lions, along with the Dallas Jr. High Student Council, recently sponsored their Fifth Annual Junior High Basketball Tournament. The event was again held at the Dallas Jr. High School on Dec. 26, 27 and 28.

This year's boys championship was won by Dallas Jr. High by a score of 65-33 over Lake-Lehman Jr. High. The third place trophy went to game. Tunkhannock who defeated Bishop O'Reilly in the consolation game.

In the girls division, it was the Tunkhannock girls who walked away with the championship trophy after defeating Dallas by a score of 25-10. Third place went to Lake-Lehman who defeated Wyoming Valley West in the consolation

Trivia test for anglers

Chosen as Most Valuable Players, in their respective division, were Brett Weyman of Dallas for the boys, and Jennifer Elick of Tunkhannock for the girls.

The Kingston Township Lions would like to acknowledge the Dallas High School Basketball Booster Club for providing the trophies, the Dallas Home-School Assn. for funding the officials; and Pizza Perfect of Trucksville for providing

Here are a few trivia questions for Pennsylvania trout anglers:

How many adult trout did the Pennsylvania Fish Commission stock in the 1984-85 fiscal year?

What was the average length of the trout stocked?

How much does it cost the Fish Comission to produce a pound of trout?

How many miles did Fish Commission trucks travel to distribute these fish?

The answers to these questions were provided by Ken Corl, Chief of the Commission's Trout Production Section in a report compiled at the

end of the 1984-85 fiscal year. According to Corl, the Commis-sion stocked 5,264,693 adult brook, brown and rainbow trout during the period. The averagte length of the trout stocked was 9.96 inches. The Commission's "Great White Fleet" of trout distribution trucks traveled 300,036 miles delivering those trout to the state's streams and lakes. The production cost (including labor, materials, supplies and food) was \$1.78 per pound. This repre-sents 81 cents for each adult trout released into the streams and lakes of Pennsylvania.

The distribution mileage required to stock the trout was the equivalent of 12 trips around the equator.

"The fish food required to feed those trout was equivalent to a convoy of 100 tractor trailer trucks hauling 22 tons per vehicle," Corl said. He noted the average cost of a load of trout food was equal to 647 resident fishing licenses.

"If these trout were placed head to tail in one continuous string, it would reach from Bellefonte, Pennsylvania to Savannah, Georgia, a distance of approximately 827.6 miles.

neers emerged victorious in the contest.

PAW POWER

This tree died of a heart attack.

IS COMING!

Carving hearts on trees seem harmless enough. But the fact is, it cut short the

life of this majestic oak. By gouging into the bark, vandals crippled the tree's vascular system. So, like thousands of other innocent victims each year, the tree slowly died.

But the fight against vandalism is gathering strength from the example of Lynn Brauer and Carol Eichling

When vandals girdled a 300 year old Chinquapin Oak near their Marthasville, Missouri home, they wrapped the wound in sphagnum moss and tended the tree daily, despite blizzard conditions. If not for the severe winter,

arborists feel the Chinquapin might have survived. We believe miracles can take

root. When people care enough
