# Sen. Lemmond leads Baptists

By **JOHN HOINSKI**  
Staff Writer

State Sen. Charles D. Lemmond Jr. has shown in the past his ability to efficiently perform in several capacities.

And, last week the former district attorney-turned judge-turned politician, demonstrated his versatility once again when he was chosen to be the guest speaker at the Dallas Baptist Church, Rt. 415 on the Dallas-Harvey's Lake highway.

Lemmond was on hand to help the Back Mountain congregation kick off an emphasis entitled, "Good News America! God Loves You." The event was part of an effort by Southern Baptists across the nation, encompassing 30,000 churches in all 50 states.

The theme of the two month drive is to let people know there are

solutions to difficulties we all face.

In particular, Lemmond, who pastor David R. Penley said church members described as a "man of God," spoke of the Christians role in changing the direction of America.

"The first thing we must do before we can change anything is to renew confidence in ourselves," Lemmond said. "We must also find renewal in our leaders, institutions and government. This country has withstood wars, assassinations, recession, inflation, abuse and corruption and it is still the most stable nation in the world."

Lemmond quoted individuals from the past who had expressed concern over our country and the ways we can help make it progress.

"Norman Cousins once said, 'what holds men back isn't the pressures of reality, but the absence of dreams,'" Lemmond said. "Ideas have consequences. And that

involves two things: belief and behavior. When we change belief we change behavior."

In addition, the Dallas resident talked about the low morality and permissiveness that has now taken over in the world, saying that "moral values are so vital that we can't take time off from practicing them."

Joking about how people like to hear politicians talk about things in three's, Lemmond stressed the three P's of Christianity: pardon, power and promise. The pardon of past sins committed, the present to help bring about renewal, and the promise of the future.

"We must develop a new attitude," Lemmond noted. "We have to concentrate on the positive things and not the negative ones. There is good news America. God does love us. Now what are we going to do about it?"

**THIS IS THE TIME OF YEAR** when we start looking for signs of spring, geese flying north, crocus popping up out of the cold ground, and the first robin. Another sure sign of warmer weather is when the ice cream stands open for the season. Since Mark II opened their Twin Kiss last Friday, Spring must be on the way.

# Supervisors review recommendations

By **KATHY SUDA**  
Staff Correspondent

Lehman Township Supervisors reviewed problem solving recommendations from the Pennsylvania Department of Transportation concerning a bottleneck traffic problem on Route 118 at their regular monthly meeting on Monday.

The board discussed the installation of two overhead mast arms with 24 hour flashing warning lights in the intersection near the Lake-Lehman Junior High School.

As an alternate plan, the board discussed suggestions of installing an overhead signal to be used during hours when congestion is greatest, such as school bus drop off and pick up times, and lunch and recess periods.

According to Alvin Cragle, the township is now utilizing the services of a township policeman to control traffic at the intersection. The board is also planning a meeting with the Lake-Lehman School Board to discuss the feasibility of sharing cost of maintenance and operation of the signal.

Charles Bartlet, spokesman for

the Oak Hill Sewer Project, told the board that the Chester Engineers have forwarded specifications for their project to the Department of Environmental Resources for approval before they are sent to the Environmental Protection Agency for review.

The financial package for the Oak Hill Sewer Project, including cost to taxpayers, has not yet been completed. Ground-breaking ceremonies for the project have been tentatively set for April 15 at 3 p.m. at the No. 2 pumping station. Construction will take approximately one year and, by 1988, the system will be on line.

The board also appointed an Agricultural Advisory Committee for the Agricultural Security Act proposal. The proposal was given to the township solicitor for his review to insure it complies with rules and regulations of the act. The committee is planning to advertise a public meeting on the proposal. Those appointed to the committee are James Cook, William Dawe, Douglas Ide, chairperson; Glen Johnson and Mike Wojcieciewicz.

In other business, it was reported that the township's General Revenue Sharing Fund will be reduced to

92 percent in July and another 66 percent cut off of the remaining 92 percent will be cut in October. The fund will be diminished completely after October due to the Gramm-Rudman Law.

Lake Township purchased one of Lehman Township's police cruisers for \$200. The vehicle is a 1975 Ford.

# Library campaign continues

Residents of the Back Mountain are reminded of the Capitol Campaign currently being conducted by the Back Mountain Memorial

Library. The committee in charge of this campaign hopes to reach the goal of \$450,000 before the project concludes.
