During World War II, he served as a lieutenant commander in the Maritime Service. He was vice-president of the Lynn Organization Inc. and was a member of Delta Kappa Epsilon Fraternity, The Church of Christ Uniting, Kingston, and the Westmoreland Club, Wilkes-Barre.

Surviving are his wife, the former Zette Lynn; daughter, Mrs. Lawrence Harris, Naples, Fla.; son, Peter B., Harleysville; four grandsons.

## Accidents reported

No injuries were reported as a result of a two-car accident Friday night along Rt. 309 in Kingston Township.

Police reports indicated that John E. Fisher, Wilkes-Barre was traveling south on Rt. 309 in the right hand lane when a vehicle driven by Terry Allen Brown, RD 6, Box 94 A, Dallas, crossed over the cement medial strip and struck Fisher's 1976 Ford Elite. Fisher said he tried to swerve to avoid the collision, but could not.

Two women received minor injuries in a two-car crash last Wednesday night on Rt. 309 near the Back Mountain Shopping Center.

Kathryn Maria Nardone, 321 S. Meade St., Wilkes-Barre and Sheryl Diane Gardner, RD 3, Box 326 Dallas were slightly shaken up when their cars collided early Wednesday night.

Police reports indicated that Nardone was traveling south on RT. 309 in the passing lane when Gardner pulled out from the exit at Burger King directly in her path, and could not stop.

Gardner stated she was awaiting to exit the Burger King lot when an unknown unit stopped to let her out. As she exited, attempting to turn left, she was then struck in the side by the Nardone car.

### Sundae Day

The students at the Dallas Township Elementary School enjoyed a rather sweet day last Wednesday as they had the opportunity to make their own ice-cream sundaes. Shown here

in the photo at left is Kelly Killeen, a first grader, as she checks out some of the toppings while another first grader, Becky Barna puts the finishing touches on her sundae in the right photo.

## New sweeper cleaning Kingston Twp. streets

In a cost-efficient move geared toward a more self-sufficient road department, Kingston Township recently put into operation a used Elgin Pelican model sweeper purchased from a Harrisburg company last month.

A student between the ages of 15-19 will live as a member of your family and attend your local high school.

If you would like to participate in this unique experience please contact: International Student Exchange, Inc., P.O. Box 58, Fort Jones, California 96032, (916) 468-2264.

The unit, which was bought for \$3,995 from the Stewart-Amos company of Harrisburg, will save the township approximately four to five thousand dollars a year according to business manager Fred Potzer.

"We originally went down there to buy a 10-ton roller," Potzer explained. "Then we saw the sweeper but they said they wanted \$4,500. We got it down to \$3,995 and then we installed a conveyor system for \$1,000 and made some other repairs. So right now we have about \$5,200 invested in it."

The sweeper, which would have cost \$48,000 brand new, was purchased with funds from revenue sharing and is already in operation. "We had it on the road today (last Wednesday) and it works beauti-

fully," Potzer noted. "We still have a little problem with the water system but we're working on it. We had it steamcleaned twice, painted and had the engine worked over. Now it's in great shape and we did the work in our garages. Now we have a truck, roller and paver, and with this addition we are now self-sufficient."

Potzer said the move was an economic one as well. Normally such a machine would be used only six to eight weeks a year, and to rent one from a private company would cost \$65.00 an hour.

"The people will now have a service they never had before," Potzer stated. "When we did the spring cleaning on the streets before, it was all done by hand."

"Another thing is that we won't have a street program where people would have to move their cars all the time. We can just do it whenever it is needed, and it takes only one man to operate the machine."

The unit cannot be operated on hills and will only be used on flat streets.

The Warden Place Water Company hereby notifies its customers of a maximum contaminant level (MCL) violation for the inorganic element, lead.

A water sample which was taken, showed lead in an amount above the MCL established by the Department of Environmental Resources.

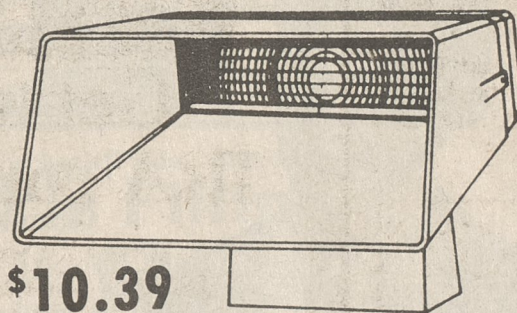

Three (3) check samples from different locations in the system show no violation in the MCL for lead.

The Warden Place Water Company has been unable to resample the home where the first water sample was taken. The elevated lead content may be peculiar to that home, since the check samples did not show an MCL violation.

When access may be gained to the home where the first water sample was taken, a check sample will be taken and analyzed.
