

## Supervisors approve ordinance

The Kingston Township Board of Supervisors Monday night approved the second reading of an ordinance that will provide the community with cable television, probably within the year.

Although the ordinance still must go through a 30-day waiting period, Tele-Media Company Cable Television Systems from State College, Pa., has been doing surveying and other preparations and hopes to have the hook-ups completed within a year.

In other business, the supervisors:

Approved a second motion of the firearms ordinance, prohibiting the shooting of firearms in the township, except for those in designated areas.

Approved the sale of a used 1979 Mauldin Roller to Bruce Hadsall, 171 Harris Hill Road, Trucksville, for a high bid of \$3,500.

Authorized the Township Manager to purchase various delinquent sewer accounts totaling \$7,250.69 from the Dallas Area Municipal Authority in accordance with the 1971 Service Agreement.

Accepted the recommendation of the Planning Commission to deny the request of Dale & Dale Homes to rezone Lot 5 on Ridge and James Street because of environmental concerns. Storm drainage systems could not accommodate the accelerated water run-off.

Authorized the Secretary to advertise for bids for one new 1986 Mini Dump Truck with plow and spreader to replace a 1979 GUC, which will be traded in or sold to the highest bidder.

In cooperation with Mr. Stetson Swan of the Back Mountain Kiwanis, authorized the Secretary to advertise for bids on the construction and installation of a "Welcome" sign to be located along Route 309.

Appointed the Township Manager as coordinator for the Act 60 Community Work Program being administered locally by Justice Earl S. Gregory.

Approved the placement of a stop sign at the intersection of Shaver Avenue and North Main Street on a 30-day trial basis.

Opened bids for storm drainage work to be done in the township. Those submitting bids were:

Mr. A.D., Anadarko, Oklahoma The System's Dream Pill combines two natural substances called L-arginine and L-ornithine which can stimulate the body's production of growth hormone. Dr. Robert Harris, a specialist in nutritional medicine in Stafford Springs, Connecticut, was recently quoted as explaining: "Growth Hormone may be what's responsible for allowing teenagers to down thousands of calories in hamburgers and other foods and still be thin as a rail."

"Growth Hormone is present in people up through the teenage years, then slowly diminishes with age. But L-arginine and L-ornithine make the body 'think' it belongs to a teenager again, allowing adults to eat as much as they want — and still be thin and wiry."

## Time to clean up mailboxes

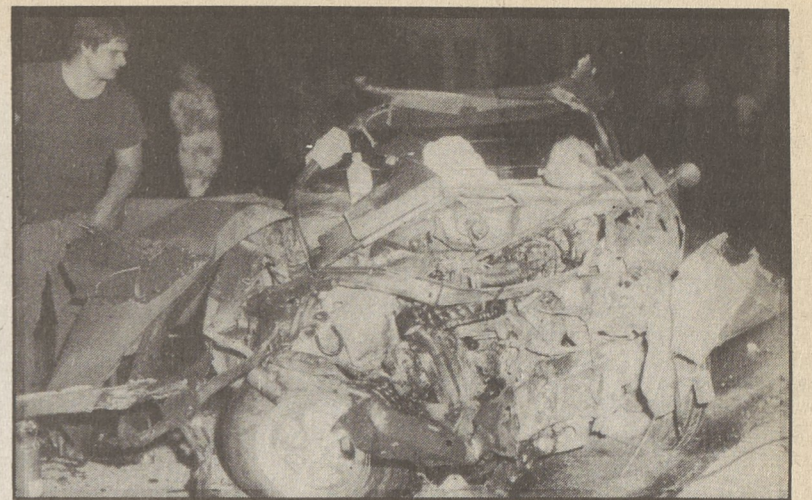

The U.S. Postal Service has designated May 19-24 as MAILBOX IMPROVEMENT WEEK.

"Each year a week in May is set aside to remind customers on rural, city motorized and contract delivery routes to examine and improve, where necessary, the appearance of their mailboxes," Dallas Superintendent of Postal Operations Ray Ceconi said.

"The purpose is to call attention to the need to provide mail receptacles that are conveniently located, safe to use, neat in appearance and designed to protect the mail from the weather," Supt. Ceconi continued.

There is no question that neat, attractive mailboxes improve the appearance of country roads and suburban streets. The Postal Service points out, however, that Mailbox Improvement Week means more than eye appeal.

Postal regulations require that rural and contract route carriers must have access to mailboxes without having to leave their vehicles.
