Project explained

Shaun Brdaric demonstrates an electrical experiment during a Science Fair held recently at the Gate of Heaven Elementary School. Each student prepared an experiment and provided a report about it. The fair, which was conducted for students from grades one through five, had a good turnout of both parents and older students. Mrs. Helen Wolverson is the science teacher and Sr. Davida is the principal of the Gate of Heaven School. All science projects were on display in the school auditorium and were open for viewing to the public.

APRIL YATSKO

LAST WEEK the eighth graders went on their class trip to New York City. On their bus tour of Manhattan, the guide pointed out many interesting tourist attractions, including the homes of various famous persons. Among their chosen activities were attendance at Liturgy at St. Patrick's Cathedral, a visit to the RCA building, a tour of Radio City Music Hall and Rockefeller Plaza, and shopping time at some of the finest stores on Fifth Avenue. The students thoroughly enjoyed their visit to The Big Apple.

IN MRS. RUCH'S SECOND GRADE CLASS, the students have put together a project in which each child wrote an article of current interest. Their writings were then organized into a class newspaper which will be distributed in their homeroom.
