After 18, no more SS checks

Children who reach their 18th birthday are no longer entitled to Social Security checks unless they are unmarried and are disabled for full-time students in an elementary or secondary school, said Thomas P. Lavelle, Social Security manager in Wilkes-Barre.

A child can continue to get monthly payments if he or she has a physical or mental condition that prevents him or her from doing substantial gainful work and that is expected to last at least one year, Lavelle said.

If a child's monthly payments are discontinued at 18, they can start again if he or she becomes disabled before reaching age 22, or becomes a full-time elementary or secondary school student before reaching 19.

Under the law, a person is considered to reach a certain age on the day before his or her date of birth.

More information about Social Security benefits for children can be obtained at the Wilkes-Barre Society Security office located at Room 2227, Penn Place, 20 N. Pennsylvania Ave., Wilkes-Barre, Pa. 18702. The telephone number is 826-6371.

Krupa honored

James Krupa, Shavertown, a sophomore at Luzerne County Community College, was recently selected to receive this year's John F. Kennedy History Award sponsored by the Wilkes-Barre Democratic Club.

Krupa achieved a 3.5 average in all history and political science courses he took at the community college. After graduating from LCCC, Krupa will enter Wilkes College as a junior and pursue a B.A. degree in history. Shown offering congratulations are, from left--Dr. Sheldon Spear, Shavertown, professor of history at LCCC; James Krupa; and Dr. William D. Energy Center offers hot weather tips

The Pennsylvania Energy Center, Region III of the Economic Development Council of Northeastern Pennsylvania offers the following hot weather tips:

- Deflect daytime sun with vertical louvers or awnings on windows, or draw draperies and shades in sunny windows. Keep windows and outside doors closed during the hot-

test hours of the day.

- Keep the lights low or off. Electric lights generate heat and add to the load on the air conditioning equipment.

- Use vents and exhaust fans to pull heat and moisture from attics, kitchens and laundries directly to the outside.

- Do as much cooking as possible

and use heat-generating equipment in the early morning and late evening hours. On cooler days and during cooler hours, open the windows instead of using air-conditioners or electric fans.

- Turn off the furnace pilot light. But be sure it is re-ignited before you turn the furnace again.

Locals graduate

College Misericordia recently graduated 208 men and women who received associate's, bachelor's and master's degrees at the college's 60th commencement convocation. Monsignor Andrew J. McGowan, chairman of Misericordia's Board of Trustees, conferred an honorary Doctor of Laws degree on Joseph Cardinal Bernardin, Archbishop of Chicago, in recognition of his leadership in the contemporary Church and his service to humanity. In his address to the graduates, Cardinal Bernardin challenged his fellow "classmates" to prepare for the next century, the beginning of a new millenium. It's time for you to take your rightful place in the mainstream of society and the Church, he said. Following the Cardinal's remarks, Dr. James Pallante, academic dean, presented the 208 degree candidates to Misericordia President Dr. Joseph Fink who conferred the undergraduate and graduate degrees. Dr. Fink noted that for the first time College Misericordia was awarding college honors to 11 students. "Four years ago we established an Honors Program as part of the college's commitment to academic excellence and the liberal arts." The college's 60th commencement convocation marks the graduation of the first Honors Class and the first computer science class.
