### Women's winner

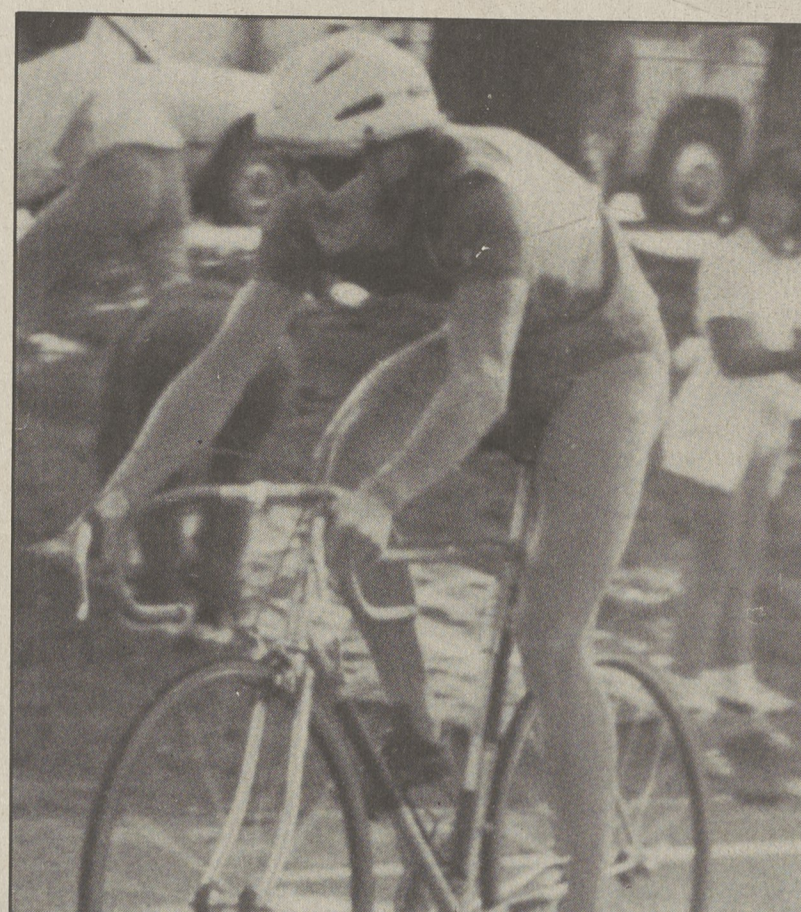

Liz Bulman (12) sips a cup of water she took from a volunteer as she left her bike and started on the run in this year's Triathlon. After trailing in the swimming and the biking, Liz managed to finish first in the women's division.

### No time to stop

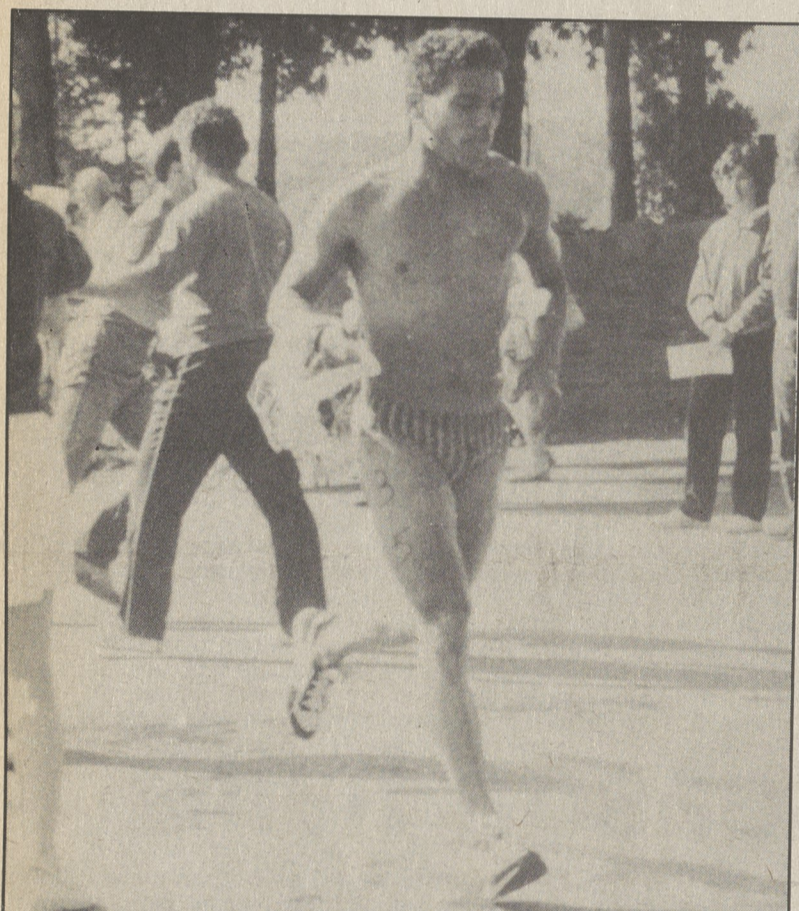

After discarding his bikes and making the transition to the run, this participant didn't take time for a drink nor bother to change but carried his bag with him.

### Unidentified finisher

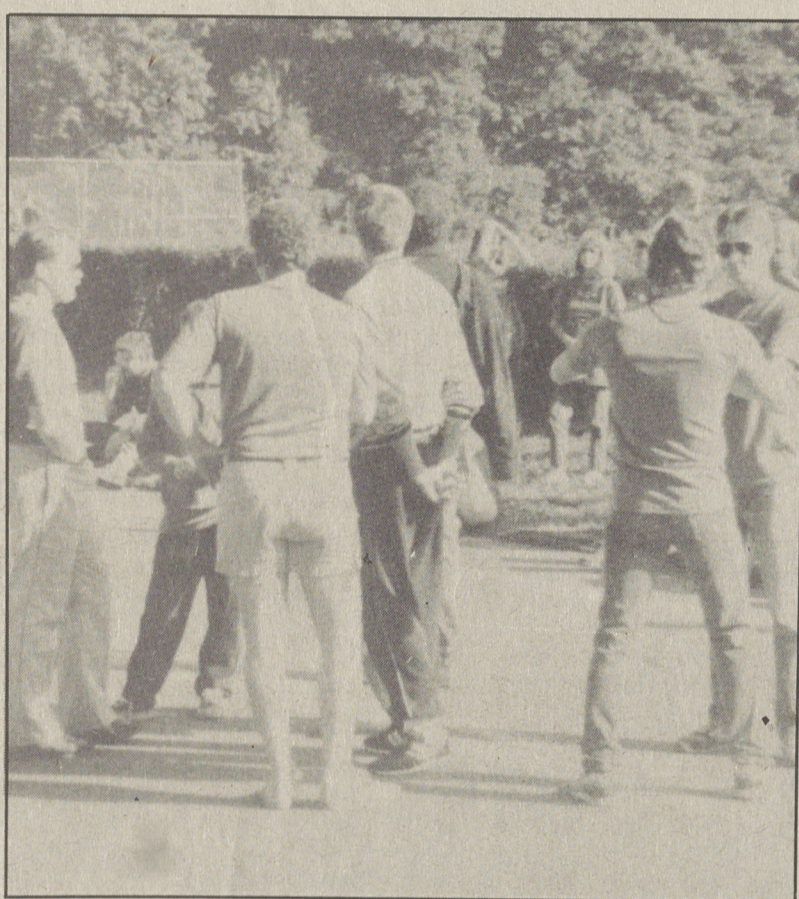

Not first but second was this unidentified biker in the 1986 Greater Wilkes-Barre Triathlon as he came across the finish line at College Misericordia.

### Hurrying along

Cliff Matias (315) doesn't take time out for a drink as he hurries to catch up to the runners in the Triathlon. After finishing among the top 10 in the biking event, Matias came in 11th in the overall race.

### Volunteers meet

Some of the volunteers working in the 1986 Greater Wilkes-Barre Triathlon discuss their assignments prior to the event beginning Saturday, Aug. 31.

## Conway's predictions

(It should be known from the outset that no system can predict the outcome of a football game precisely. The Conway Computer System provides the fan with basic estimates which is better known as the "Instant Pre Play." Thus, the Conway system encourages the fan to draw on his own knowledge of the game and employ his own judgement in weighing all the influencing factors which will enable the fan to derive greater overall pleasure and satisfaction for the upcoming season.
