**What's Your Excuse for Drinking Dirty Water?**  
  
 The glass of water you are drinking may contain toxic levels of Lead, Copper, PCB's, Nitrates, and Bacteria. You can't see them.  
 Even if your water does not smell, taste or look contaminated, chances are the water you use for everyday purposes can contain harmful amounts of various elements.  
 WaterTest, the nation's most recognized independent water testing laboratory, offers a complete analysis of your drinking water. Whether your water comes from a municipal system, or your own private well, the analysis is easy, fast, and accurate. In fact, ABC News Good Morning America found that WaterTesting laboratory is "the test most recommended by water experts".  
 WaterTest is an independent testing laboratory. We do not represent any water treatment equipment manufacturer. We are concerned solely with the quality of your water.  
 Now there is no reason to take a chance drinking contaminated water and risking your family's health. Simply turn to WaterTest and learn exactly what is in your water. To find out more about the WaterTest solution, please call us at  
**842-7633**  
 or call toll-free  
**1-800-872-2342**  
 and talk with a qualified water expert.
