College Misericordia students part of state model program

Nearly 40 students at College Misericordia are part of a state model program whose methods and research may help elementary, junior and senior high school students across Pennsylvania and the country learn to read and cope with situations which require reading ability.

Until recently, the effort to help learning disabled children has been relatively limited. Misericordia is a leader in the adaptation of actual college curriculum to learning disabled students who have the potential for college life. During American Education Week, November 13-18, Misericordia celebrated the 10th anniversary of its ALP.

The program recently got an added boost from the purchase of a computerized device called the Kurzweil Personal Reader. Previously used for the blind, the Kurzweil "reads" nearly any printed text. Through a hand scanner or a desktop scanner, students with vision and/or visual perception problems can extend their resources beyond books-on-tape and listen to almost typed or printed page.

Operating with a grant from the U.S. Department of Education and the Pennsylvania Department of Education, Misericordia is entering the second year of three-year project to help regular and special educators from across the state better

prepare students who are learning disabled for college. One-day workshops have been offered to each intermediate unit in Pennsylvania. Eight of these have been completed and 12 others are scheduled for the 1988-89 school year.

In addition, educators are chosen and sent to Misericordia for a special summer training program in which they learn how to advocate for, develop, implement and monitor multi-faceted college preparation programs for high school students who are learning disabled. Misericordia plans to establish a major research institute based on programs for adolescents and adults who are learning disabled.

College Misericordia recruits students

Prospective College Misericordia students and their parents collected not only t-shirts, but also information on students activities, academic requirements, financial aid and athletics at a recent open house. Speakers on the various topics held sessions throughout the day.

From left, Heather Langdon of Dallas High School with Mrs. Pamela Langdon and Kathy Conroy of Fanwood High School, with Tom Conroy of Scotch Plains, New Jersey, visited Misericordia. Admissions counselors Mary Kutz, Mary Lou Schilling, and Scott Mrphy discussed Misericordia's programs, scholarships and facilities with the students.

The open house offered tours of dorms, classrooms and newly renovated labs in the \$2.5 million science building. Over 250 attended this year's program.

MUSIC STUDENTS - Pictured above from left are, McCabe, Mr. Thomas Hanlon, Music Department and Stahovec.

Bishop O'Reilly music students picked to attend PMEA Festival

Two music students from Bishop O'Reilly High School in Kingston have been selected to attend the PMEA District 9 Chorus Festival in January at Honesdale High School. Guest conductor at the event will be Mr. Cyril M. Stretansky from

Susquehanna University. The two students are Michelle McCabe and Greg Stahovec.

McCabe, daughter of Mr. and Mrs. Frank McCabe of Kingston, is a senior who is active in Glee Club, Chamber Choir, the school play and

her church choir. Stahovec is the son of Mr. and Mrs. Andrew Stahovec of Dallas. In addition to being active in the Glee Club, Chamber Choir and the school play, the sophomore is also a member of the soccer team and a cantor at Gate of Heaven.

Misericordia constructs campus courtyard with help of alumni gifts

College Misericordia recently constructed a new courtyard on its campus through special gifts received from the Class of 1947 and 1957.

St. Joseph's Alumni Courtyard now replaces St. Joseph's Cottage which was Misericordia's first gym-

nasium constructed in 1927. As Misericordia's enrollment increased, St. Joseph's Cottage was transformed into a dormitory housing 24 students. Due to the recent addition of new buildings at Misericordia, St. Joseph's Cottage became outdated and was demolished.

The donating Alumni hope that St. Joseph's Courtyard will once again offer students and graduates a place to mingle and enjoy Misericordia's campus. Future gifts from other classes will be used to further enhance the courtyard.

Wilkes honors local educators

In conjunction with the recent observation of American Education Week, Wilkes College hosted a Teacher Recognition Luncheon on campus. With the cooperation of the local officers of the Pennsylvania State Education Association, and the administration of school districts in Luzerne Intermediate Unit #18, superintendents and teacher

representatives from each school district in I.U. #18 were honored at the first annual event.

Among those honored include: Marilyn Glogowski, Teacher Association Representative, Lake-Lehman; Gerald Wycallis, Superintendent, Dallas and William Wagner, Teacher Association Representative, Dallas.
