Five Dallas teachers to get new degrees

Five Dallas teachers are in the process of completing their graduate studies in a relatively new Master's Degree Program at Wilkes College. The Master of Science Degree in Education concentrates on educational development and teaching strategies. The five educators were among the first in the area to enroll in this innovative program. Ms. Robyn Jones, health instructor, and Mrs. Ann Seitz,

physical education instructor, will receive their degrees this spring. Mr. William R. Wagner, science teacher, and Mr. John Lenahan, special education teacher, will be awarded their degrees in August.

Mrs. Maryann Storz, social studies instructor, will complete her studies in the spring of 1990. All recipients are members of the Dallas Middle School faculty.

With the growing demand for trained professionals in the medical fields, Luzerne County Community College continues to offer courses of study in eight allied health programs in order to meet area needs.

One of them the Emergency Medical Services (EMS) curriculum, provides the student with both the clinical and administrative skills needed in today's EMS systems. The program is open to students with no previous experience in EMS, as well as to current practitioners.

According to Jim Johnson, director of the LCCC Emergency Medical Services program, employment opportunities in EMS are readily available. Ninety-five percent of last year's graduating class at LCCC are now working in the field.

The EMS program at LCCC recently instituted new courses of study including Defensive Driving; CPR; and Scuba Diving, which is offered through the college's Continuing Education Division.

For more information on any of the allied health programs at Luzerne County Community College, contact the college's Admissions Office at 829-7339 or 829-7338.

Parents asked to register Dallas school children

The Dallas School District is requesting the cooperation of parents with children of school age who have not registered for the 1989-90 school year.

It is essential that the district be informed, as soon as possible, of all new students planning to register, especially the kindergarten and first grade students.

Problems occur with class and school building assignments as well as transportation arrangements when student are registered late. Parents of new students or those transferring from other schools are strongly encouraged to register their children immediately. Late elementary registrants may

not be assigned to the most convenient school building.

All kindergarten through 5th grade students are to register at the Administration Building, Church St., Dallas. Junior and Senior High students will register at their respective school offices located on Conyngham Ave., Dallas. Offices are open weekdays 8 a.m.-3 p.m.

Parents must bring birth certificates, report cards from the previous school and immunization records. No student will be allowed to enter school without proof of the required immunizations.

If there are any questions, call the school district at 675-5201.
