## In our service

Cadet Walter J. Lasecki has completed a U.S. Air Force ROTC field training encampment at Plattsburgh Air Force Base, N.Y.

Field training, attended by cadets normally between their second and third year of college, gives an opportunity to evaluate each student's potential as an officer.

The summer curriculum consists of orientation on jet aircraft, career opportunities, human relations education and equal op-

portunity training. Physical fitness and survival training is also emphasized.

The field training is four weeks, but cadets in the two-year ROTC program receive an additional two weeks of instruction in the development of air power and the contemporary Air Force.
