Safer than Volvo in Sweden. Safer than Volvo here. Safer than Volvo period.

For years, Volvo has led you to believe they make the safest cars you can buy. All they're missing are the facts to back it up.
For years, Saab has been building safe cars. But unlike some of our competition, we have the facts to back up the claims:
Fact #1: In a recent study of over 900,000 accidents by Sweden's largest insurance company, Folksam, the Saab 900 was one third safer than the Volvo 700 series, twice as safe as the average car in its class and three times as safe as the average car in all classes.
Fact #2: For the past five years, the U.S. Highway Loss Data Institute (HLI), comprised of over 250 major insurance companies, rated the Saab 900 and 900 series cars as safest in their respective classes. This study covered more than 6,000,000 personal-injury accidents.
Fact #3: For 1990, each and every Saab sold in America has anti-lock brakes and driver's air bag as standard equipment.
The above three paragraphs are not ad hype or mere opinion. They are the truth, the whole truth and nothing but the truth.
Period.
