## Lower School students slate Roman Festival

Students in the seventh and eighth grades at Wyoming Seminary Lower School recently participated in a Roman Festival as part of their Latin class assignment. Students researched and constructed models of buildings found in ancient Rome and displayed them in the Mural Room of the school. Some of these upperclassmen taught groups of third grade students about their assignment, and took them on a guided tour through the Festival. Wyoming Seminary remains the only school to teach Latin as early as seventh grade. The instruction of this language is continued at the Upper School level.
