Misericordia establishes Flood Endowment

Honored guests and friends of Daniel and Catherine Flood will pay tribute to them and their efforts over the years at a special banquet which will be held Friday, June 15 at 7 p.m. at the Genetti Best Western, Wilkes-Barre. In honor of the Flood's significant contributions made over the years to improving the quality of life in the Northeast Pennsylvania Region, this celebration will kick-off fundraising efforts for the Catherine and Daniel Flood Endowment for Humanities at College Misericordia, established by the College this year.

Over the years, the Floods have been instrumental in helping the 4-year liberal arts institution enrich the lives of so many graduates, and through this Endowment, the College can ensure that the memory of their efforts will always be a part of the life at Misericordia.

With the help of a special committee of volunteers under the leadership of Nancy Cresko,

Honorary Chairperson and life-long friend of Daniel and Catherine Flood, special fundraising efforts are expected to reach the \$100,000 goal which has been set for the Endowment.

The Endowment funds will be used to award scholarships to worthy students in the humanities, sponsor periodic lectures in Daniel and Catherine's name and enhance the efforts of study of the Humanities at College Misericordia.

Monsignor Andrew J. McGowan, Director of Community Relations and Diocesan Director of the Catholic Health Care Facility at Mercy Hospital, Scranton, will serve as Toastmaster at this special dinner and reception honoring Catherine and Daniel Flood. Anyone wishing to receive an invitation to this special banquet on Friday, June 15, should contact the Development Office at College Misericordia at 674-6368 on or before May 25, 1990. Seating is limited.

Now is the best time to have
a heart to heart talk.

Technology has made it easier to read your heart in a better light. Actually seeing you heart at work, enables us to gather information that could be vital to your well being.

Stress echocardiography allows us to understand the messages your heart is transmitting. This technique, new to the Wilkes-Barre /Scranton area, is safer than cardiac catheterization, because no dyes are injected into the blood stream.

It's time we had a heart to heart talk, because we understand the language.
